## SILENCE VEILS THE BATTLEFRONT TO-DAY

### ARTILLERY DUEL AT TSING TAU FORTS

Japanese Siege Guns Sink One  
of Enemy's Destroyers  
in Harbor

### GERMANS DESTROYED THE RAILWAY BRIDGE

Legation at Peking Makes  
Threats as to Further Acts  
of Destruction

Tokio, Oct. 1, 1:50 a.m.—A severe engagement has been opened by the German warships which cannonaded the Japanese positions near Tsing Tau, seat of the government of Kiau Chau, the German leased-territory in China. Two officers were killed. German aeroplanes assisted the warships.

The Japanese war office announces that the artillery duel at Tsing Tau continues. A German torpedo-boat destroyer sank in the harbor yesterday (Wednesday). Apparently this ship was not in action.

From other sources it is stated that the German destroyer was sunk by Japanese siege guns.

It was officially announced late this afternoon that the Nagato Maru, a Japanese mine sweeper off Kiau Chau, was blown up and sunk. Three men were killed and thirteen others wounded.

Another Japanese vessel, the supply ship Wakamiya Maru, was damaged, one man being killed and six injured.

Japanese aeroplane operators assert they hit a German vessel during the latest fighting at Kiau Chau with bombs thrown from the machines at a height of 700 yards. Two biplanes and one monoplane were engaged. The wings of the machines were riddled with bullets, yet they returned safely to their base.

Peking, Oct. 1.—No explanation has yet been advanced here of the dynamiting of the railroad bridge at Tai Yua Ho, six miles west of Wei-Hsien, in Shantung province, by Chinese troops. The foreign office says that this action was not taken on orders of the war department, and suggests that German railroad employees might have caused the destruction.

The foreign office has requested the British legation in Peking to mediate the question of railroads between the Chinese and the Japanese. The Peking Gazette has suggested that the Japanese seize no railroads in China, and that the Chinese authorities give assurance that the transfer of railroads to any outside nation be not permitted while the war lasts.

At the German legation in Peking it was said to-day that the Germans caused the destruction early this week of the railroad bridge at Tai Yua Ho, and that they will cause other bridges to be dynamited if the Japanese continue their westward movement. They will dynamite also all the government buildings at Tsing Tau when a further defence of that place becomes impossible, they say.

The Japanese legation here to-day expressed the belief that the troops now attacking Tsing Tau would await the arrival of siege guns.

### MARSHAL OF FRANCE AS JOFFRE'S REWARD FOR GALLANT WORK?

London, Oct. 1, 10:45 a.m.—Although at present there is no marshal of France, says a Bordeaux dispatch to the Havas agency, a decree dated September 29 fixes the salary of this post at 20,000 francs (\$3,000).

The Matin points out that this is a significant step, and is an augury permitting of the highest hopes. The post of marshal of France is the highest dignity obtainable in the French army, and although it was originally a royalist post the rank was reconstituted in 1875. This was with the proviso that the conditions under which the rank would be bestowed should be fixed later. These conditions up to the present have never been laid down.

### MEXICAN ELECTION DATE.

El Paso, Tex., Oct. 1.—Luis Aguilar Benavides, secretary of General Villa, under date of September 30, telegraphed the Associated Press that an armistice had been declared throughout Mexico with Aguas Calientes as a neutral zone. He stated also that elections would be held, according to the first agreement, from October 5 to October 10. Carranza's resignation, generally expected to-day, may not take place until after the conference of military chiefs at Zacatecas.

### WAR OFFICE CALL FOR RAILWAYMEN IS SIGNIFICANT

London, Oct. 1, 2:20 p.m.—The British war office has issued a call for 1,000 expert railroad men to assist in the operation of the French railways.

### SHIPMENTS OF GOLD ARE GOING TO OTTAWA

New York, Oct. 1.—The first shipment of gold to Ottawa, for account of the one hundred million dollar gold pool raised to pay indebtedness abroad, was made to-day, when \$5,000,000 in coin and bars was taken from the sub-treasury and assay office.

It is the purpose of the managers of the fund to ship at least \$25,000,000 to Canada by the middle of the month. There was a further decline in exchange on London to-day in consequence. With cables at \$4.97 1/4 and demand at a cent under that quotation, exchange now is about five cents under its high rates of the early week.

### ITALY READY TO PROTEST.

Paris, Oct. 1.—Italy is ready to make a protest to Turkey against the abolition of the capitulations at Constantinople, according to a Rome dispatch to the Havas agency.

### WRECKED CREW LANDED.

Lowestoft, Eng., Oct. 1, 12:50 p.m.—The crew of the steamer Selby, sunk by a mine in the North Sea, while on a voyage from Shields to Antwerp, was landed here to-day.

## Walls Tumble Under Rain of Shells as If Houses of Cards

London, Oct. 1, 3:13 a.m.—Telegraphing from Paris under date of Wednesday, the correspondent of the Daily Mail reports the destruction by heavy artillery of the unfortified town of Albert, eighteen miles from Amiens, which has been the scene during the past few days of a prolonged and terribly murderous artillery battle. He gives the following account of the scene from an eye-witness who was on a hill overlooking Albert:

"We were warned along the road to be careful and saw a vast column of people coming away from the town, but nothing happened until we heard a deep boom, quite unlike the noise made by an ordinary field gun, and a shell evidently of much greater force and size fell in the town. We thought it must be an accident of misdirection and then to our indignation the shells began to fall rapidly. They came in bunches. There were several batteries at work and their aim was excellent. I saw only three shells burst outside the town. The place collapsed literally like a pack of cards that had been built up into houses, as every moment something fresh went. Now it was the

### AUSTRIAN PROMISES It May Not Be in Any Position to Carry Them Out When War Ends.

Rome, Oct. 1, by way of London, 2:42 p.m.—The Austrian government has replied to the Italian protest against the floating mines in the Adriatic sea. Austria deprecates the sinking of Italian vessels and promises to take measures to remove the menace to shipping and to fully indemnify the relatives of the victims.

It is reported that Italy demands an indemnity from Austria of \$1,000,000.

### GERMANY FORBIDS ENTRY INTO HOLLAND

Amsterdam, via London, Oct. 1, 7:45 p.m.—A dispatch to the Handelsblad from Maestricht says that the Germans in the Belgian province of Liege have issued a proclamation directing that no Belgians between the ages of twenty and forty-five years, who are liable for military service, shall cross into Holland. The correspondent states that the Germans are arresting and sending into Germany all the Belgians in this category. Many, however, have eluded capture and have arrived at Maestricht.

### RUSH ORDER FOR FLOUR.

St. Louis, Mo., Oct. 1.—A rush order for 110,000 barrels of flour was placed with a local milling company yesterday by representatives of the warring European nations, the identity of which was not disclosed. This is the largest single sale of flour ever made here. The price was not stated.

### LEIPZIG SINKS A BRITISH STEAMER

Bankfields, Sugar-Laden, De-  
stroyed Off Peruvian Coast;  
Crew at Callao

Callao, Peru, Oct. 1.—The Kosmos steamer Marie arrived here to-day with the crew of the British steamer Bankfields, which was sunk by the German cruiser Leipzig off Eten, Peru. The crew of the Bankfields have appealed to the British consul here in the hope of obtaining their liberty. The men said that their ship carried a cargo of sugar valued at \$500,000.

The Marie was followed into port by the German steamer Amasia, also of the Kosmos line, which sailed the Leipzig a few days ago.

The Bankfields was a steamer of 2,339 tons, Captain Ingham. She sailed from Cardiff on June 19, for Iquique, Peru, and arrived at Antofagasta, Chile, on July 30. She had not been reported since.

The German cruiser Leipzig has been active since the war began. She sailed from San Francisco after coaling in port on August 18. Since then she has been variously reported, but no definite news of her whereabouts was received. To-day's report indicates that she has been looking for prizes on the western coast of South America. The Bankfields is the first vessel sunk by her, so far as is known.

town hall, now a group of cottages and then a high wall.

"It reminded one of a scene in a Drury Lane melodrama. One could not believe without an effort that one was seeing a real town shelled. It was just as if some inventor had made a new kind of explosive and had invited his friends to see it demolish a model town. I stayed there an hour fascinated."

The correspondent continues:

"That brings the story up to 6:15 p.m. when the witness left with some wounded who had been brought out of the town. The road toward Amiens at that time was packed with refugees of all ages, and old men and women, too feeble to walk, were being wheeled in barrows."

"At half-past six a number of fires, lighting up the whole countryside, were visible. Looking toward Albert they appeared to be hay-ricks which had been set alight by shells. The largest of these red glares was Albert on fire. Against the flaming background the tall spire of a church stood out undamaged up to 8 o'clock, but it was impossible to enter the town, as the heat was too great and the streets unsafe."

### SEIZURES OF COPPER DESTINED FOR ENEMY

Washington, Oct. 1.—The British ambassador, Sir Cecil Spring-Rice, conferred with state department officials again to-day over British seizures of American copper shipments in neutral ships. Ambassador Page in London will confer to-morrow with Sir Edward Grey, secretary for foreign affairs, on the subject.

Great Britain has assured the United States that it will pay American owners in all such instances. Officials are inclined to the view that where such shipments are plainly destined to belligerents, even though shipped through neutral ports, there is no warrant in international law to protest against their seizure. The subject, however, is open.

### LORD ROBERTS WARNS AGAINST MAKING UNDER-ESTIMATE OF GERMAN STRENGTH

London, Sept. 30.—Lord Roberts, in an article in the Hibbert Journal, urges the empire not to under-estimate the power of Germany, with its 66,000,000 people.

"I cannot help thinking," he writes, "that the great task of subduing that nation will begin when we, with our French, Russian and Belgian allies, have driven the Germans into the heart of their own territory."

"May I give a word of caution to my fellow countrymen against the unsportsmanlike practice of abusing one's enemies. Let us avoid what Kipling,

### CANADIAN EXPERT CHOSEN TO CONDUCT INDUSTRIAL PROBE

HON. W. L. MACKENZIE KING

New York, Oct. 1.—The Rockefeller institute announced to-day that it had decided to make a far-reaching investigation of industrial conditions in this country, and that it had secured the services of Hon. W. L. Mackenzie-King, former minister of labor in Canada, as director of the investigation. Mr. King has conducted a great many investigations in Canada, and is looked upon as one of the best men for such a task as the institute has in view.

Ottawa, Oct. 1.—Hon. W. L. Mackenzie-King will take the position offered him by trustees of the Rockefeller institute. His investigation plans years of constructive study and educational work with a view to securing legislative and industrial reforms throughout the world. His new position will not involve his giving up his political life and he will still be a Liberal member for North York and candidate at the next general elections.

### AUSTRIAN GENERAL DOWN WITH CHOLERA

Von Auffenburg is Officially  
Stated to Be Ill, Following  
Disastrous Retreat

Paris, Oct. 1, 6:45 a.m.—It is officially announced by Austria-Hungary, says a dispatch from Rome to the Havas Agency, that General von Auffenburg, commanding the first Austrian army, is ill. A message from Vienna by way of Rome gives cholera as the nature of the illness.

General von Auffenburg, minister of war in the Austrian cabinet from September 19, 1911, until December 9, 1912, was in command of the first Austrian army when the war broke out. With the army of General Dankl he began an offensive campaign in Russian Poland and had some preliminary successes, invading Russian territory as far as Lublin.

The Austrian reverse at Lemberg, however, changed the situation in the north, and for a time the position of Auffenburg's army was said to be precarious, as the Russians threatened to cut him off. By desperate fighting he managed to retreat safely to Rzeszow, Galicia, where he again formed a junction with General Dankl and the two armies retired toward Tarnow and Cracow.

The last definite news received of von Auffenburg was that he was commanding the centre of a new and intended defensive front with his base at Tarnow.

during the Boer war, describes as 'killing Kruger with our mouths.' Let us rather devote all our energy to defeating our foe by the superior fighting of adequate numbers of British soldiers in the open field."

"When we read the charges against the German troops let us remember that gross charges, absolutely untrue, were brought against us when fighting in South Africa, but whether the charges are true or not, let us keep our own hands clean and let us fight against the Germans in such a way as to earn their liking as well as their respect."

### TURKEY NEXT POWER TO COME INTO WAR

Demands Explanations From  
Britain Regarding Station-  
ing of Warships

London, Oct. 1, 1:57 a.m.—Turkey, the London Daily Telegraph says, it understands is about to make a demand concerning the stationing of certain British warships with which it will be impossible for Great Britain to comply, and it is likely, therefore, to bring Turkey into the European war.

The Telegraph instances many indications of the Turkish policy, such as the Ottoman government's ambiguous conduct in relation to the German cruisers Goeben and Breslau, the invitation to German officers to go to Constantinople, the mobilization of Turkish troops in Syria and the closing of the Dardanelles, and adds:

"If Turkey chooses war let her clearly understand that it will mean the end not merely of Turkey in Europe, but Turkey in Asia, and that the allied powers will exact the fullest retribution."

### OVERPOWER GUARDS ON RAILWAY BRIDGE

Attempt Made to Blow Up G.  
T. P. Structure at Crossing  
of Saskatchewan

Saskatoon, Sask., Oct. 1.—Six men made an attempt last night to blow up the Grand Trunk Pacific bridge over the Saskatchewan river at St. Louis, according to a man reaching the city on this morning's train from Prince Albert, who vouches for the correctness of the story.

Inspector Duffus, of the R.N.W.M.P., who is in charge of the district, would neither deny nor confirm the report.

The men attacked the two night guards on duty at the bridge and attempted to overpower them, declaring that they were going to blow up the structure. It is alleged, according to the report, they did not succeed in their attempt, but it could not be learned just what took place. The officials at the local offices of the Grand Trunk Pacific would not say anything.

### ANTWERP ASSAULT STILL CONTINUES

Fire From Belgian Forts Makes  
It Necessary to Move  
Siege Batteries

London, Oct. 1, 5:35 p.m.—A dispatch to the Evening News from Antwerp says that the German attack on Antwerp continued throughout last night with little interruption. The Belgian forts replied so effectively, it is reported, that the Germans several times were compelled to change the position of their batteries.

The correspondent at Antwerp adds that Wavre and St. Catherine's forts remained silent for some time yesterday afternoon, leading the Germans to believe that their bombardment had silenced them. The Germans then sent a section with field artillery to attack the forts only to find themselves under fire. Only a few of the attacking force escaped. Following this the Belgians made a sortie and captured several guns.

Washington, Oct. 1.—Col. Jolewski, military attaché of the Russian embassy, issued to-day the following official report from Petrograd:

"On September 28, after stubborn fighting, our troops captured the German positions at Augustowo and Kopetz. On September 29 we took the defiles between the lakes of Sinno, Sereje and Lepjany."

"The Germans have been driven back into the region between Suwalki, Sejny and Marianopol. Our advance continues. German siege artillery continues the bombardment of Oswowez, but without success. At Dohulick and at Andrejew only unimportant skirmishes are reported."

### CABLE SERVICE RESUMED.

New York, Oct. 1.—The Great Northern Telegraph company, it was announced by the Commercial Cable company to-day, has resumed its deferred cable service to Denmark, Sweden, Spain and Portugal.

## BRITISH AND FRENCH CALMLY CONFIDENT OF FINAL OUTCOME

Allied Forces Are Operating Behind a Close  
Screen, and Even Paris Summary Gives  
No News—Von Kluck's Tactics Fail, and  
There Is Every Justification of Optimism

London, Oct. 1, 1:07 p.m.—The screen of secrecy erected by the censorship almost entirely across Northern France stands to-day nearly unimpaired. It has, however, judging from indications in London, been pierced here and there with holes which permit some inkling of the events happening on the stage behind it.

From what can be deduced from fragmentary glimpses, there is justification, in the opinion of British observers, for confident optimism on the part of the allies. This describes events as shaping themselves for a repetition of history as it was written on the river Marne when the allied forces sent the Germans back on their tracks.

All von Kluck's Tactics Fail.

All the skilful tactics employed by General von Kluck, the commander of the German right wing, have thus far failed. These efforts, however, have by no means ceased, and the German general staff, it is felt in London, probably will risk something elsewhere in order to reinforce this wing.

Heretofore, reinforcements have been met by reinforcements. The Germans nearly got through the allied ring near Albert, to the northeast of Amiens, but after two days of fierce fighting they failed. These incessant assaults on the part of the Germans have, according to the allied commanders, cost the assailants such appalling losses in men that, even allowing for reinforcements, their ranks must have been materially weakened.

The announcement from France of the decree giving effectiveness to the post of marshal of France, coming simultaneously with the report of General Joffre, commander-in-chief of the French forces, of the satisfactory condition along the entire battle line, has been hailed by the allies as significant.

The German navy is showing increased activity on the Baltic coast. It is in readiness to support German land forces if they should succeed in forcing the passage of the river Niemen, from which, however, they have been forced back by the Russian army.

In the meanwhile there has come to London news that within a week a new Russian army, one million strong, will join the present armies in Poland and Galicia for "Russia's principal attack on Germany."

French Communique is Brief.

Paris, Oct. 1, 2:55 p.m.—The following official communication was given out here this afternoon:

"There has been no modification in the general situation. We have nevertheless made progress on our left, to the north of the Somme, and on our right, in the southern Woevre district."

The Germans continue the fierce attack in the angle formed by the rivers Oise and Aisne in the direction of Tracy-le-Mont just northeast of the forest of the Aisne, already the scene of a success by the allies. Here the French lines have thus far held solidly, and attempts to break them have been futile. The contest has been singularly desperate, but the allies, by delivering counter manoeuvres, have checked the attempts of their adversaries.

The latest news from the front, while not giving sufficient details to satisfy the Parisian eagerness for war news, is nevertheless regarded by them as favorable, and they continue to wait with patience for some decisive result of the great battle.

Repeats Manoeuvres Incident.

Lieut.-Colonel Rousset, the military critic, writing to the Petit Parisien, quotes the sentence from the official communication reading: "On our left wing to the north of the Somme, the action continues to develop more and more toward the north," and says:

"I remember perfectly having seen at the imperial manoeuvres of 1909 something analogous to the actual situation of the German forces to-day. A certain corps of the attacking army, disappointed in a manoeuvre which it contemplated against the left flank of the 'enemy,' found itself at the end of the day compressed between two lines of fire which had the form of the letter V reversed. It is needless to say that the German emperor was not at all satisfied, and I doubt if he be more so to-day in seeing this singular operation happen in actual warfare to his great loss."

"Having been unable to oppose our extension toward the north, the Germans struggled to break at its summit the angular line we occupy. Against Tracy-le-Mont they delivered a furious attack which appears to have cost them dear. Perhaps it is not the last one. I imagine, however, that such assaults will become more and more rare because they will wear out when unsuccessful."

### RELIEVES DYE SHORTAGE.

London, Oct. 1, 2:35 p.m.—The embargo on the exportation of aniline oil from Great Britain has been raised. This will relieve the dye shortage which has threatened American factories.

## LATE NIGHT WAR NEWS

SAVAGERY OF ENEMY  
TOLD OF IN LETTERS

German Soldiers Gloat Over the Unspeakable Acts They Are Guilty Of

London, Oct. 1.—German tales of tragic episodes of the war were issued by the official press bureau last night. The stories were taken from a book called "Krieg's Chronik," which was seized from aliens entering British ports. The volume consists, according to the bureau, "partly of a highly untrustworthy chronicle of the war, and partly of soldiers' letters from the front."

"As showing the methods of thought of the enemy, these last have considerable value," continues the bureau. "It is not the truth or falsity of the tales that matter, but the applause and self-congratulation of the writers on deeds of gross treachery and cruelty claimed to have been done by themselves or comrades."

The narrative of an artillery officer, on the extermination of a Belgian village, as given by the bureau, follows: "The countryside was full of our troops. Nevertheless, the stubborn peasants must needs shoot at our men as they marched by from lurking places. Day before yesterday, the Prussian troops surrounded a village, put a woman, children and old people aside, and shot all the men. The village was then burned to the ground."

The story of the shooting of a boy scout is given as follows: "A traitor has just been shot. He was a little French lad belonging to one of the gymnastic societies which wear the tri-colored ribbons, a poor young fellow, who, in his infatuation, wanted to be a hero."

"As the German column was passing along a wooded defile he was caught and asked whether the French were about. He refused to give any information. Fifty yards further he was fired on from the cover of the woods. The prisoner was asked in French if he had known that the enemy was in the forest, and he did not deny it."

"He went with a firm step to a telegraph pole and stood against it with a green vineyard at his back, and received the volley of a firing party, with a proud smile on his face. Infatuated wretch! It was a pity to see such wasted courage."

Signor Monti Guarnieri, deputy from Pesaro, recently called on the minister of war for an explanation of the delay in the manufacture of cannon ordered from Italian firms. Parliament not being in session, the interrogation has not been answered as yet. It was semi-officially stated that the question concerned eighty-seven field batteries.

The delivery of the guns of the 75-millimetre type was delayed owing to a modification in the shipment made after the order had been given.

BIG GUNS MAKING  
FOR ITALIAN ARMY

Other Preparations for War; Adriatic Thickly Sown With Mines

Rome, Oct. 1.—Details of the destruction of a fishing boat off Rimini by a floating mine shows that the fishermen mistook the mine for a wine cask, which they sought to recover. Throwing out a line, they drew the supposed cask toward them, and when it touched their craft an explosion occurred. The boat was blown to pieces, and all the nine men on board were killed. Members of other fishing craft in the vicinity were injured by flying splinters.

Naval experts express the opinion that hundreds of mines are floating toward Italy, and as a consequence all the steamship lines operating to Dalmatia, Montenegro and Greece from Italian ports have suspended sailings.

Seafaring interests demand that the government require prompt and thorough satisfaction from Austria.

Floating mines in the Adriatic, according to the announcement made today, already have caused nineteen deaths, which have aroused Italian feeling against those responsible.

Factories manufacturing big guns are working night and day to finish the supply of modern cannon which has been ordered for the Italian army. The firms hope to be able to hasten the work to such an extent that the whole army will be provided with these cannon in a few weeks.

An order has been issued to hasten the preparation of the supply of provisions and ammunition for the troops.

PASSAGE OF NIEMEN  
BY GERMANS FAILED

Driven Back by Russians, Their Attempted Diversion Has No Effect

London, Oct. 1.—A Petrograd dispatch to the Daily Chronicle says: "To the west of Grodno lies the big pine forest of Augustowo, 24 miles long and 36 broad, intersected by a canal connecting the Niemen with the Vistula and studded with lakes."

"Through this forest, in rainy, chilly and sloppy weather, the Germans who the other day tried to force the passage of the Niemen northwest of Grodno, are retreating, while the Russians are advancing and attacking the Germans on the flank apparently with the object of cutting their communications. A little farther south the Germans are delivering a frontal attack on a small fortress which commands the only negotiable passage across the swampy district. So far the attack has proved unsuccessful at this point."

"The attempted German advance in a southwesterly direction has been checked, but still far north in Silesia, along the frontier of the Patokow and Kallisz governments in Poland, the Germans are greatly strengthening their forces, and according to a Russian official statement, are preparing for active operations."

"In all this curious shuffling, hurried work and marches and counter-marches of the German army along the Polish frontier, a certain plan is becoming daily visible. The German and Austrian armies together constitute one big army, extending from Galicia to the Baltic, and connected through Cracow. The left flank of this army in Galicia is crumbling under the unceasing blows of the Russian battering rams, and the Germans are apparently trying to neutralize the effect of the Russian advance on the southeast by a turning movement on the Russian right to the north of Warsaw."

"So far this attempt has failed, and the reported preparations for an advance in Silesia may be intended to create a diversion with the object of facilitating a more northerly movement."

"In Galicia the Russians continue to advance, occupying important strategic points, picking up battalions of famished and exhausted prisoners, artillery, ammunition and stores, and finding at every step evidence of thorough disorganization of the Austrians. The latter have at no point had time to reform their army. Their retreating regiments are a jumble of men belonging to various units utterly lacking in cohesion and clinging together merely for safety in flight."

GERMAN-CANADIANS  
OF WATERLOO LOYAL

Ottawa, Oct. 1.—W. Welch, member for North Waterloo, who is in the capital, says there is absolutely no justification for the statements made in other parts of the Dominion reflecting upon the German-Canadians who are in a majority in his constituency.

The contributions to the patriotic fund in the city of Berlin, Ont., he says, will reach \$75,000, which, in proportion to its population, is more than was subscribed in Toronto. He states that the proposal to organize a new militia regiment is being pushed with enthusiasm. The first night the lists were opened 200 volunteered.

INVASION OF HUNGARY  
ALARMING TO VIENNA

Vienna, Oct. 1.—The news of the beginning of the Russian invasion of Hungary is exciting the greatest apprehension throughout the monarchy, despite all official assurances that the action is without importance and should give no occasion for anxiety.

The work on the fortifications around Vienna is being hastened, and an official warning has been issued to the public against entering certain areas on penalty of arrest and danger of being shot by the sentries.

The Asiatic cholera is spreading rapidly, cases being reported daily in Vienna and in various districts of Hungary. Scores of cases already have been found in Galicia, whence the disease has spread to other sections.

PORTE'S AEROPLANE  
TO SEE WAR SERVICE

New York, Oct. 1.—The mammoth aeroplane with which Lieut. Porte had expected to fly across the Atlantic was shipped to England on the steamer Mauretania, and it is said, will be used by the British government for war service.

The American, said to be the world's most powerful aeroplane, was tested at Hammondsport, N. Y., last summer before the European war caused a postponement of the proposed flight.

Lieut. John C. Porte, who expected to make the trip across the Atlantic in the America, is an Irishman and an officer in the British navy. Soon after war was declared he returned to active service.

TALKS SEDITION AND IS  
EXPULSED FROM BOARD

Vancouver, B. C., Oct. 1.—Voting 19 to 2, the Vancouver Board of Trade last night expelled T. A. Fee, a Vancouver architect and property owner, from the board for seditious statements made in the hearing of another member of the board.

Mr. Fee was found guilty by an investigating committee of having publicly stated that he would not subscribe to any war fund in Canada, and that he would rather live under the Stars and Stripes anyway.

He also asked what John Bull had done for him, and declared that he would be quite ready to subscribe to have the United States flag fly over Canada.

Little discussion took place at the board of trade meeting, the members merely passing the resolution and singing the national anthem.

## CHILI REMAINS NEUTRAL.

Valparaiso, Oct. 1.—Chili is making every effort to maintain absolute neutrality in the European war. The Chilean cruiser Almirante Lynch followed the German cruiser Bremen until she was clear of Chilean waters. Several German steamers whose departure from Chilean ports there was reason to believe might constitute a violation of neutrality have been warned not to leave. If they do so they were told they would be pursued and stopped. The Chilean fleet has been distributed to give effect to these orders.

## ACT OF SCHOOLBOYS HAD FATAL EFFECT

Tampering With Car-Brakes  
the Cause of Motorman's  
Death in Vancouver

Vancouver, Oct. 1.—An inquiry is being held by Coroner Jeffs this afternoon at Hamilton Brothers' undertaking parlors, South Vancouver, into the circumstances attending the death of Charles J. Geall, the B. C. E. R. motorman, who was killed in yesterday's accident on South Main street.

From statements made by boys who are alleged to have released the brakes of the freight cars, and by eye-witnesses of the accident, it appears that shortly after noon yesterday a party of six boys from Van Horne school, aged from 9 to 11 years, began to play with a number of hand cars which were being used in connection with the paving of Main street, between Forty-seventh and Fifty-first avenues.

Three of the boys, Willie Law, Alexander McCosh and Malcolm McCallum, left the hand cars and are alleged to have mounted to the top of three large box cars, filled with cross-tied wood blocks, which were standing on the new permanent tracks near Fifty-first avenue waiting to be unloaded, and Willie Law is alleged to have knocked out the "dog" which locked the brakes.

Two of the box cars began to move down hill towards the Fraser river, and young Law, after vainly trying to lock the brakes again, with the other two boys, ran down the iron ladder from the top of the cars and jumped off before they had attained much speed.

A number of workmen, who were sitting by the side of the road eating their dinner, observing what had happened, picked up planks and laid them across the car tracks, but the weight of the cars carried them over the planks again and again until nothing could stop the terrific rush down the steep hill.

## SOLDIER'S STORY OF RUSSO-GERMAN FIGHT

New York, Oct. 1.—A soldier's story of the four-day battle between Germans and Russians at Neidenburg was told by Christian Smith, who fought with the seventy-fifth Bremer Infantry and who was a passenger on the steamer United States.

His was the first detailed account available here of the fighting in the eastern theatre of war. Smith is a coffee planter in Guatemala and a German by birth. When war broke out he was in Germany and enlisted. He was sent to East Prussia with his regiment.

"There I took part in the battle of Neidenburg," he said, "which started August 22 and lasted four days. The Russians sent masses of troops against our lines in close formation. We had a few Uhlans, but they were used only for scouting and outposts. The Russians used many Cossacks in their main attacks.

"The Russian bases were at Vitna and Grodno and they attacked in great force from both these directions. Our troops retreated before them until they had passed the Masur lakes. Then, with the help of reinforcements, we outflanked both their columns and turned them on the lakes. Thousands of Russians were killed wounded or drowned in the swamps around the lakes and we took thousands of prisoners."

## Much Pain From Kidney Disease

Doctored in Vain Until Dr. Chase's  
Kidney-Liver Pills Were Used.

Kidney derangements are often associated with disorders of the liver and bowels, and under these conditions ordinary kidney medicines usually fail to effect cure. It is because of their unique, combined action on the liver, kidney and bowels that Dr. Chase's Kidney-Liver Pills are so generally successful, even in the most complicated cases.

Mr. Emanuel Bernard, farmer, St. Paul's, Kent county, N. B., writes: "About eighteen years ago my wife was bad with kidney disease, and suffered greatly from headaches, pains in bowels and stomach, and her hair was affected. For a year she was treated by her doctor, with no apparent benefit. She then used five boxes of Dr. Chase's Kidney-Liver Pills with most satisfactory results. This gave us such a good opinion of Dr. Chase's Kidney-Liver Pills that we always keep them in the house to be used for all derangements of the kidneys, liver and bowels." Dr. Chase's Kidney-Liver Pills, 25c a box, 5 for \$1.00, all dealers, or Edmanson, Bates & Co., Limited, Toronto.

## ONLY SIXTEEN, GIRL VERY SICK

Tells How She Was Made  
Well by Lydia E. Pinkham's  
Vegetable Compound.

New Orleans, La.—"I take pleasure in writing these lines to express my gratitude to you. I am only 16 years old and work in a tobacco factory. I have been a very sick girl but I have improved wonderfully since taking Lydia E. Pinkham's Vegetable Compound and am now looking fine and feeling a thousand times better."

—Miss AMELIA JAQUILLARD, 8961 Teboultoulas St., New Orleans, La.

St. Clair, Pa.—"My mother was alarmed because I was troubled with suppression and had pains in my back and side, and severe headaches. I had pimples on my face, my complexion was sallow, my sleep was disturbed, I had nervous spells, was very tired and had no ambition. Lydia E. Pinkham's Vegetable Compound has worked like a charm in my case and has regulated me. I worked in a mill among hundreds of girls and have recommended your medicine to many of them." —Miss ESTELLA MAGUIRE, 110 Thwing St., St. Clair, Pa.

There is nothing that teaches more than experience. Therefore, such letters from girls who have suffered and were restored to health by Lydia E. Pinkham's Vegetable Compound should be a lesson to others. The same remedy is within reach of all.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

## WEST IS PROSPEROUS SAYS RAILWAY HEAD

E. J. Chamberlin Finds Crops  
Have Splendid Appearance  
Through Prairies

Winnipeg, Oct. 1.—E. J. Chamberlin, president of the Grand Trunk Pacific, gives a glowing account of conditions in Western Canada along his line. He has just returned from a tour of inspection, and is on his way back to Montreal. It was his first trip through to Prince Rupert, and he was very enthusiastic.

"Everything looks bright and prosperous in the West," remarked Mr. Chamberlin, with a smile. "It is a beautiful, busy country. This is especially true of Prince Rupert. We have a new drydock out there that will be completed by January, which will hold a 20,000-ton battleship. We can build any kind of a ship in it that can be built in any modern shipyard."

"The war has not noticeably affected business in the West. Everything was hasty and life while we were there. It was a great sight, and inspiring. One could not help but feel confidence in such a country."

"The crops through Alberta and Saskatchewan have a splendid appearance. I had expected to see a very mediocre harvest this year, but I was most agreeably surprised. One could not hope for better conditions than prevail in the sections of Saskatchewan, Alberta and British Columbia tapped by the Grand Trunk Pacific."

## FATHER KILLED; SON DYING OF WOUNDS

Montreal, Oct. 1.—Jules Lavergne, a Montreal photographer, was shot and killed last night, and his son, Rene, is in a critical condition from a bullet wound. J. N. Lapres, 406 St. Denis street, alleged to have done the shooting, also is in a critical condition from a revolver shot and is in the hospital.

The elder Lavergne was for many years a partner of Lapres in a well known photographic business that is now owned by the son, Rene Lavergne. It was said that Lapres wanted to buy the business and started the shooting because Rene Lavergne refused to sell. Jules Lavergne, after the shot which brought down his son, rushed at Lapres and in the scuffle he and Lapres were shot.

Judge Lanctot took Rene Lavergne's statement in the hospital as it was thought he might not recover.

## DR. REAUME STEPS OUT.

Toronto, Oct. 1.—Hon. J. O. Reaume, minister of public works in the Ontario cabinet, last night resigned his portfolio. In an interview he stated that he had made up his mind some time ago to take this step, and would have done so had not Sir James Whitney asked him to remain in office until such time as he felt better able to deal with the appointment of a successor.

As a matter of fact Dr. Reaume, like all the other cabinet members, ceased to be a minister when Sir James Whitney died.

### THE WAR

The French official bureau sums up the situation in northern France as satisfactory. In elaboration it says the allies are progressing north of the Somme on their left while on their right they have advanced to the slopes of Rupt de Mad. The Berlin bulletin admits the presence of the allies north and south of Albert, a point about eighteen miles northwest of St. Quentin, which would bring them to the vicinity of Cambrai on the German line of communication with Brussels by way of Valenciennes. Thus the allies continue to drive the extreme German right farther and farther north until it cannot be more than twenty miles from the Belgian frontier. The more the German line is extended the more it is weakened, and if it is to be reinforced the German centre and left must make the sacrifice. It is quite clear that the allies have now a substantial numerical superiority which is becoming greater every day. As they have taken the initiative in this region they have the advantage in being able to select the point of attack. The route over which they are passing is the same by which they retired when the superior numbers of the Germans enabled them to take the initiative in operations similar to those they now are endeavoring to resist.

But the allies are not confining their activities to the flanking operation with their left. They are engaged also on a turning movement against the German left flank in the Woerwede district. In reaching the slopes of Rupt de Mad they are now between the German force which attempted to create a diversion by occupying St. Mihiel, between Verdun and Toul, and its line of retreat. The continuation of this movement northward would seriously menace the German left flank, already placed in a difficult position by its inability to mask or silence the great guns of Verdun. The problem to be solved by the German strategists is how to strengthen the hard-pressed right front without weakening the left and facilitating an equally dangerous French turning movement in that direction or to strengthen both the right and left without weakening the centre and opening the way to a vigorous offensive from Rheims. If the Belgian army could be put out of business a portion of the corps occupying that territory might be diverted, but the Belgian army undoubtedly is growing larger every day and promises before long to assume very formidable proportions. The frequent sallies from Antwerp, increasing in magnitude, suggest that Belgium is receiving reinforcements.

Of course Germany can obtain reinforcements by stopping her various services and denuding some of her Baltic provinces of troops, but her armies cannot operate at all if the railways, the mines, the steel and iron industries, the harvesters and other auxiliaries of the commissariat and transport departments are sent to the trenches. Besides more and more men will be required for her eastern frontier. Russia expects to have a brand new army of a million men in Poland and western Galicia within a week. This will mean that the process of her first mobilization covering 4,000,000 will be complete. If that final million is not sufficient another million will be called upon.

Austria was significantly prompt in her expression of regret to Italy over the loss of an Italian fishing vessel through striking an Austrian mine. While her reply to the protest may appease the Italian government, the incident will not rest there, for it has fanned the fires of anti-Austrianism which are now making the situation in the peninsula very tropical to say the least. This sentiment cannot be restrained much longer. At the same time we should not forget that even if Italy decided to remain neutral her neutrality has been of incalculable value to the allies and should be re-

warded. It has enabled France to leave comparatively unprotected her Italian frontier and divert several of her finest corps to meet the German invasion. Had Italy remained true to the alliance with Germany and Austria the allies would have had a much more formidable task, not only in France but in the Mediterranean.

A significant report comes from Tokio. It is that a German destroyer has been sunk in Tsing Tau harbor, and that German warships are engaged in an artillery duel with a Japanese position. This can only mean that the Japanese siege guns have the harbor within range and that before long the warships sheltered there will have to try conclusions with the Japanese fleet cordon outside. The fall of Germany's stronghold in the east is now only a matter of a few days, but we shall hear little of the situation until the Japanese flag flies over the place.

### PROMOTING A HOME MARKET.

The Times is informed in a dispatch from Ottawa that it is the intention of the Dominion government to enter upon a campaign of extensive advertising in the principal cities of the Dominion. The article to be advertised in the first instance is the Canadian apple, of which the British Columbia apple is the chief, according to the records and the testimony of unspoiled palates. An initial appropriation of ten thousand dollars has been set aside for this commendable purpose. Canada is producing more than enough fruit of the very best quality to meet the requirements of the home market, and there is no reason in the world except defective organization and apathy why the importations of foreign fruit should be so large as they are. There should be a remunerative market for all the domestic products of British Columbia. As a rule there has not been much to commend in the administration of the present Dominion government since it assumed office, and there will be plenty of opportunities for continued criticism of its acts, but in this matter it will be commended if it carries out its programme energetically and produces results. Nothing will be more likely to create prosperity such as we had for fifteen years than stimulating the production of native products and patronizing local industries.

### FRANCE.

It must be confessed that when the war began the average reader of history, with the Franco-Prussian struggle and periodical exposures since that time in mind, entertained some misgivings regarding France. While everybody admitted the courage and dash of her soldiers in offensive warfare, especially in an enemy's country, little was known of her leaders or the integrity and efficiency of her military administration, while there was felt some apprehension as to the manner in which France would endure a war on her own territory which would lay her beautiful cities in ruins and destroy her priceless temples of art and her historic buildings. This uncertainty was not allayed by the predictions of keen observers that France would do more than hold her own; the authoritative assurances of economists as to her financial resources or the prophecies of renowned warriors, like General Nogi, that the French army was superior in fighting qualities to that of Germany.

France has shown the world that never has the steel of her national life been more finely tempered than it is to-day. Gone are the frills and furbelows, the volatility, the gay caprices and the histrionics. France is in arms and among her devoted sons are none more intrepid than the authors, the actors, the artists, the picturesque habits of the bohemia whose antics led her enemies to believe that there were no stern virtues in the republic and that the orgies of Montmartre typified the decadent spirit of the race. Sceptics forgot, too, the fervent patriotism which flourished among the peasantry, the backbone of the nation, the peasantry which tossed over to Berlin the billion-dollar indemnity exacted by Bismarck and pursued the even tenor of its way as if nothing had happened.

The sensational collapse that Berlin anticipated, just as it anticipated revolutions in Ireland and India, has not taken place. The army which was expected to blow up has fought that part of the Kaiser's legions opposed to it to a standstill; the leaders who were to be children alongside von Moltke and von Kluck have fooled the vaunted Potsdam strategists to the top of their bent; the sensational press is so silent that the rigidly censored journalism of Berlin is garrulous in comparison with it. There have been no Metz or Sedans, and if there had been and her superb capital lay in ruins, France would not have relaxed her grip upon the German throat.

Aside from the achievements of her armies, nothing exhibits more strikingly the spirit which dominates the French resistance than the official bulletins issued by the war office. Neutral opinion as expressed in New York is that they are admirable. They are cautious, moderate and frank. They admit reverses and make no fantastic claims to successes. They declined to announce a victory at the Marne until long after

von Kluck's right wing had become seriously demoralized and they had captured many prisoners. To this day the world does not know how many Germans have been rounded up in France, but we have reason to believe that their number is exceedingly large. It is not gay, inconsequential Paris that is indulging in falsehood and verbal pyrotechnics, but Berlin—Berlin which celebrated the "capture of the French capital," the "sinking of nineteen British ships," the "burning of Edinburgh," the "great Austrian victories" over the Russians, and other official claims fed to an excited, nervous populace by a lying bureaucracy. France, like Britain and Russia, is presenting to the world an inspiring picture of dignity, restraint, confidence and unbending resolve. Germany herself is filling the role her warlords had selected for her foe across the Vosges.

### CUT OUT THE FRILLS.

It is reported from Ottawa that before proceeding with the organization of a second contingent or the recruiting of reinforcements for the first overseas Canadian force the Minister of Militia may take a short trip to Great Britain to transfer formally the dominion force to the Imperial authorities.

The place for Colonel Hughes at this juncture is at home. It is unnecessary for him to cross the Atlantic to make a formal transfer. Provision for placing the Canadian contingent under the control of the British authorities already has been made and the situation is too pressing for a waste of time in adding frills and ceremonies.

It is for Colonel Hughes to see that the delay which occurred in the organization of the first contingent is not repeated in the recruiting of reinforcements. This should be undertaken at once and without any theatrical demonstrations on the part of the minister or any repetition of the inexcusable interference with the mobilization machinery which aroused so much criticism from all sides throughout the country. The minister can have all the reinforcements required by simply calling for them. Victoria can raise another contingent of excellent quality in twenty-four hours, and we know the other cities in Canada can do the same. It is for attention to these essential details that the country pays the Minister of Militia, Earl Kitchener, General Joffre, General French and the Grand Duke Nicholas will attend to the war. Incidentally, we may observe that they are not talking or quarrelling with their colleagues, but are doing things.

### TO-DAY'S SUMMARY.

Slight advances by both wings of the allied armies are indicated in an official statement issued by the French war office to-day. At the same time the general situation is described as unchanged.

"We have, nevertheless," says the statement, "made progress on our left to the north of the Somme and on our right in the Southern Woerwede district." This brief announcement affords the only light from official sources thrown on the great struggle in northern France to-day. London and Berlin were still silent in the late afternoon and what unofficial reports reached this country by way of capitals of the belligerents contained little to indicate the course of events on the different battlefields. Not since the war began has the censorship been so severe.

The most recent word from the Belgian war office, also given out last night, states that the Belgians were successfully repulsing the attacks of the Germans on Antwerp.

Fighting in the far east has begun in earnest with an attack by the German warships on the land positions of the Japanese who are besieging Tsing Tau in furtherance of their campaign against the district of Kiau Chau in China. Refusal of Germany to withdraw from this leased possession caused Japan to declare war.

An official statement issued at Tokio to-day says that Japanese siege guns sank a German torpedo boat destroyer while a Japanese mine-sweeper was sunk off the harbor and a Japanese supply ship damaged.

Nothing is made known of the progress of the fighting in the eastern theatre of the war to-day.

A news dispatch from Petrograd under yesterday's date says a German squadron bombarded Windau, a Russian seaport in the Baltic, on September 24. The forts replied to the fire of the ships, which, after destroying the lighthouse, withdrew.

General von Auffenburg, commander of the first Austrian army, is reported ill with cholera at Vienna.

News dispatches from Switzerland state that Austria is confronted with a serious shortage of food supplies.

A correspondent at Paris, referring to the events of yesterday, says that the Germans continue a fierce attack on the allies in the angle formed by the rivers Oise and Aisne in the direction of Tracy le Mont. Yesterday's statement by the French war office said that the Germans were repulsed at Tracy le Mont.

peeling for winter clothing for the troops.

British revenues for the first half of the fiscal year ending yesterday fell off \$13,500,000, while expenditures were increased by nearly \$230,000,000.

Austria has replied to the protests of Italy expressing regret that Austrian mines in the Adriatic have destroyed Italian fishing boats and promising compensation and greater care regarding these mines. It is reported that Italy demands an indemnity of \$1,000,000.

The thirty-eighth German casualty list, published to-day, contains the names of eight thousand officers and men killed, wounded or missing.

The shattered remnants of the Austrian armies have taken refuge in Przemyśl and Cracow; cholera has broken out among Austrian soldiers; Cossacks are marching upon Budapest; Servians have occupied a considerable part of Bosnia and are in possession of Semlin—and the Archduke Frederick says the situation is favorable! One wonders what he would call an unfavorable situation.

### BETTY WITH HER MARKET BASKET.

McLandburgh Wilson.  
 In these days of costly living I have little use, I own, for the maid who stocks the larder By the lazy telephone. But the sterner times are with us, And the simpler ways they bring; Betty with her market basket Is the girl I want to sing.

For she totes it to the market As our mothers did of yore, And at prices cheap and thrifty Fills it with a luscious store. Yet for my 'twice prove expensive, And my 'twice will not be hid; Betty with her market basket Stows my heart beneath its lid.

"GERMANY CAN'T LET GO."  
 Philadelphia Public Ledger.

"The story comes out of Washington that Germany is ready to make peace with the allies. The report has no official sanction, but Ambassador Benstorff has graciously let it be known that if the allies would lay down their arms, Germany would flatter them by imitation. When one considers the untapped military resources of Russia, the huge French army that has not yet been engaged and the undisputed command of the sea which England enjoys, the suggestion of peace coming from Germany irresistibly recalls the story of the man who bound the field and approached the animal. The animal approached him, but he dodged and succeeded in grabbing the bull's tail. He was dragged around the pasture at hair-raising velocity, and finally shrieked in ecstasy of fear: 'I've caught the bull, but for Heaven's sake help me to let go.'"

### THE PHILOSOPHY OF COLD STEEL

From the New York Tribune.  
 Anybody can prove that in hand to hand fighting an automatic gun is worth ten bayonets. Which would you rather face a burglar with, for example? After a charge across a field, with which could you do the more damage? There is no doubt of the answer. Yet every military power retains the bayonet and uses it in close fighting. Why?

The answer goes back of fighting theory and fighting machines to the human equation. It is a question of psychology rather than of killing power. The automatic may be the more deadly weapon, but it has not the wicked, visible glitter of a row of fixed bayonets charging up to a defensive line. The bullet is an invisible enemy. You cannot see it swooping toward you, you do not imagine it cutting into you. The gun coughs and it is all over. The row of bayonets starts, wavers, comes on, faster and faster, nearer and nearer. Some of them go down. Others keep on. Cold, white death is sweeping up to you, and small wonder that you break and run.

It is the constant assertion of the allies that the German soldiers have no taste for steel and have constantly given way before bayonet charges. The point is one of the most psychological questions which impartial reports may or may not settle. The fact is unquestionable anyway that cold steel has retained its value in warfare, despite all the marvellous weapons that gunpowder has placed in the hand of man.

**MUNICIPAL VOTERS' LIST FOR 1915**

The Municipal Voters' List of the City of Victoria is composed of three classes of voters, namely, those who vote as:

1. ASSESSED OWNERS OF PROPERTY OF THE ASSESSED VALUE OF NOT LESS THAN \$100.00  
2. HOUSEHOLDERS  
3. LICENSEES

1. ASSESSED OWNERS WHO ARE NOT HOLDERS OF AN AGREEMENT OF PURCHASE OF THE PROPERTY UPON WHICH THEY DESIRE TO QUALIFY.

2. THOSE WHO ARE: Before the assessed owner of property held under agreement to purchase can have his name entered on the voters' list he is required to file with the Clerk, or Assessor, before the closing of the voters' list (on the 30th day of November next at 5 p. m.) a STATUTORY DECLARATION, proving that he, or she, is the holder of the LAST AGREEMENT TO PURCHASE LAND OR REAL PROPERTY, or is the LAST ASSIGNEE THEREOF, by the terms of which such holder, or assignee, is liable to pay the taxes, has paid the current year's taxes, and is a British subject.

3. AUTHORIZED REPRESENTATIVES OF CORPORATIONS. The duly authorized representatives of a corporation must be a resident of this Province, and a British subject, and the Corporation must have its name on the voters' list and be the assessed owner of lands, or improvements, in the municipality of the assessed value of not less than \$100.00.

2. "HOUSEHOLDERS" shall extend to and include any person of the full age of 21 years who occupies a dwelling, tenement, hotel or boarding house, who has been a resident in the municipality from the first day of January of the current year, and who shall, unless exempted by the provisions of the proviso at the end of sub-section (1) of Section 54 of the Municipal Act (which exempts certified efficient militiamen and persons over the age of 60 years from paying road taxes) have paid directly to the municipality all rates, taxes or assessments which are not chargeable on land, which rates, taxes or assessments, so paid shall amount to not less than two dollars, due to the municipality for the current year, other than water rates or taxes, or license fees for dogs.

3. "LICENSEES." This voter is one who carries on business in the municipality and is the holder of a license, the annual fee of which is not less than \$5.00. 2. and 3. In the case of a holder of a license, and in the case of a householder, he, or she, shall during the month of October in each year, make and cause to be delivered to the Clerk of the Municipality, a statutory declaration made and subscribed before a Supreme or County Court Judge, Stipendiary or Police Magistrate, Commissioner for taking affidavits in the Supreme Court, Justice of the Peace, or Notary Public, or Municipal Clerk, in form, and to the effect of Form 1 in the Schedule of the said Act in the case of the holder of a trade license, and of Form 2 in said Schedule in the case of a householder.

4. No declaration to qualify as a householder, or license holder, can be accepted by the Clerk unless it is delivered within 48 hours after it is made.

5. No person shall, under any circumstances, be entitled to more than one vote for Mayor or Aldermen at the same election except a voter who also acts as the duly authorized agent of a corporation as above mentioned.

6. No person who is not a British subject can have his name placed upon the voters' list or be allowed to vote at any municipal election.

7. No Chinese, Japanese or other Asiatic or Indian are entitled to vote at any municipal election for the election of Mayor or Aldermen.

8. No application to the Police Magistrate, or a Judge, for an order to add to the voters' list the name of any person alleged to have been improperly omitted therefrom, shall be heard, or order made, after the 31st day of December next.

FORMS OF DECLARATION MAY BE OBTAINED AND THE NECESSARY DECLARATIONS MADE AT THE OFFICE OF THE CITY ASSESSOR, SECOND FLOOR, CITY HALL, DOUGLAS STREET.

Back From Switzerland.—Mr. and Mrs. A. F. Stevens are back in the city from Switzerland, in which republic they were when hostilities were declared. Mr. Stevens, who is a member of the Acme Press, Ltd., states that there was great excitement in Switzerland when the soldiers were called out. Poverty had followed on the stress of war as much as in many of the countries' more directly involved.

Compiling List.—The principal of Upper Canada college is now drawing up a list of those old boys of the college who have gone with the first Canadian contingent. Up to the present the list contains seventy-five names. Principal Auden desires to get in touch with relatives and friends of old boys who are either going to the front or already have departed. He wishes to make the roll of honor as complete as possible.

Fusiliers' Band.—At the annual meeting of the 88th Fusiliers band officers were appointed for the ensuing year. A most gratifying report of the band's progress was presented showing that the organization had just doubled the amount of engagements of the preceding year. The popular Sunday evening theatre concerts given during the last two winters with such great success will be started again in a few weeks. In the meantime the musicians are diligently rehearsing after having taken a couple of weeks' rest.

Discussed Railway Matter.—The freight committee of the board of trade at its meeting to-day took up the question of a rail connection between the Canadian Pacific railway and the Canadian Northern railway near Cumberland. The committee decided to let the matter stand over until it had had an interview with Joseph Hunter, of the Canadian Collieries. It will be remembered that some months ago, the people of Cumberland sent down a strong deputation to Victoria to protest against the Canadian Northern passing outside of Cumberland.

Fought One Round.—Both of them badly pummeled about the face, William Roach and Pat Kelly graced the dock of the police court this morning. Last night they had a gentle argument near the E. & N. bridge which resulted in blows being struck. When Constable Duncan appeared on the scene they were at it hammer and tongs with a crowd standing round applauding the battle. The men ran as soon as they saw the officer, but were quickly caught and taken back to the station. Neither knew what the fight was about this morning, but they both agreed they had had a little more than enough liquor. Each was sentenced to a fine of \$5 or five days in jail.

Public Library Hours.—The Victoria Public Library announces that during the winter months, commencing to-day, the circulation, reading, and reference departments of the library will open at 9 a. m., and remain open until 9.30 p. m. daily during the week except on Saturday, when the rooms will be open until ten o'clock. On Sunday the reading and reference departments will be open from 2 to 9 p. m. The staff will do everything possible to provide the various reference books requested, and special cards will be issued to students who wish to follow up their studies at home. This privilege will be of particular value to members of night schools, literary and social clubs, etc., and for teachers either of Sunday or day schools the reference section of the children's department will be of special value.

## TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, October 1, 1889.

The collection of customs for the month ending September 30 were \$77,548, as compared with \$61,318 in September 1888.

The city will shortly have an improved fire alarm system. The old and unreliable telephone calls which often caused confusion and a great loss of time to the fire department, are to be superseded in a few weeks by the Gamewell fire alarm system, which is more extensively in use on this continent than any other. The contract has been awarded to the California Electric Company, of San Francisco.

One of the most terrific gales that has visited this coast for two or three years swept over the city this morning. When the gale was at its height houses trembled and creaked in a manner that made nervous people apprehensive. The Islander, in endeavoring to leave the harbor, broke a propeller and had to return to the wharf.

Saanich Taxes.—The figures of the receipts of taxes on land in Saanich municipality have not yet been tallied, but the clerk announced this morning that they were satisfactory. The overdraft was paid off yesterday without reference to the receipts of the last day. The total will probably not be known till Saturday.

Few Fire Alarms.—There were only 20 fire alarms within the city limits during September and the loss was trifling. On property within the city \$139 worth of damage was done and \$99 worth on contents, the insurance being \$16,500 on buildings and \$8,800 on contents. The principal fire of the month was that on the S. S. Otter. The department laid 6,000 feet of hose, used 240 gallons of chemicals, raised 106 feet of ladders and traveled 112 miles, 1,130 yards.

Aged Men Entertained.—Last evening the inmates at the Old Men's Home spent a very enjoyable time as the guests of the Young People's Society of St. Andrew's Presbyterian church, which, equipped with well-filled hamper of provisions and a full complement of entertainers, provided a very delightful programme for the aged residents. About thirty members of the society were present, headed by the president, N. Emms Read, and a programme of music and recitations filled in the evening. Those who assisted with vocal solos were the Misses Morton, Douglas and Mrs. Read. Recitations were given by Miss Read and Miss M. Winnie Moir. The Misses Jeffries, Moir and J. N. Smith played the piano and G. Rumsby played a cornet solo. Violin solos were played by Miss M. Burridge and Mr. Sinners, and the proceedings concluded with a pianoforte solo by Miss J. Polson. After serving refreshments to the aged men the visitors departed, many requests for their early return being made by their appreciative audience.

## GIVES TO CHARITY.

Victoria Amateur Dramatic Society Subscribes \$500 at Annual Meeting; Officers Elected.

Owing to the unusually successful character of several of its productions last winter the Victoria Amateur Dramatic society, which held its annual meeting last evening, was able to announce that it had the sum of \$500 to be subscribed to various charities, and the following apportionment was decided upon after lengthy discussion:

The sum of \$100 to that department of the patriotic fund which exclusively provides for the wives and children of Victoria soldiers who have gone to the front; and the rest as follows:

To the Belgian Relief Fund ..... \$100  
To the Royal Jubilee hospital ..... 50  
To the St. Joseph's hospital ..... 50  
To the B. C. Protestant Orphanage ..... 50  
To the Seamen's Institute ..... 50  
To the Junior Anti-Tuberculosis Society ..... 50  
To the Friendly Help Society ..... 50

Mr. Jullier, in the absence of the president, Colonel Hobday, acted as chairman of the proceedings, during which officers for the ensuing year were elected: President, Colonel Hobday, re-elected; vice-presidents, Dean Doull, re-elected; Mr. Justice Irving and J. J. Shallos; secretary-treasurer, R. N. Hincks. The committee was re-elected en bloc, with the exception of Mr. Yates, who has gone to the old country. W. H. Ricardo was elected in his place.

In discussing the work for the winter the members quite unanimously agreed that it would be unfair for the organization to use its influence to draw money from the public by giving plays or entertainments at such a time unless such were specially requested by any of the well known local charitable organizations or societies aiming at assisting any of the war funds. At the instance of such, however, it was felt that the Dramatic society might give an entertainment, and help any fund which required assistance if approached by the committee of such.

## "JONES ALWAYS KNOWS"

They were discussing Jones' excellent business ability.

"Jones always knows where to buy everything at the lowest price," said his friend.

"He always seems to do better than I can in getting 100 cents worth for a dollar."

Jones is merely the type of successful man who believes in using his brains.

He is above all else a student of advertising—and he makes his newspaper pay for itself many times over by the information its advertisements give him.

## MILITARY HONORS

### FOR DEAD VETERAN

Funeral of Major John Wilson Held Yesterday; Old Soldiers Among Mourners

A long cortege of mourners yesterday afternoon followed to their last resting place the mortal remains of the late Major John Wilson. Full military honors marked the obsequies, and all ranks and professions were represented in the big gathering of sorrowing friends who met to pay their last tribute to one who was widely respected and esteemed.

The procession left the family home, 1147 Fairfield road, at 2.30, the solemn strains of the "Dead March in Saul" forming the music to which the cortege moved to Christ Church cathedral, where the services were conducted by the Ven. Archdeacon Scriven, assisted by the Rev. G. H. Andrews, rector of St. Mary's, Oak Bay, and late army chaplain.

The column of mourners was led by a firing party from the 50th Highlanders, under command of Captain Roberts. Sergeant-Major Edwards, of the British Campaigners' association, of which the deceased officer was for many years president, acting as marshal. The casket, borne on a gun carriage lent by the 5th regiment, was draped with the Union Jack and flags presented by the Daughters of the Empire to the Campaigners' association, a wreath of laurel and the colors of the Crimean and Indian campaigns through which Major Wilson served, resting on the pall. The carriage also bore the medals, decorations and sword of the deceased veteran.

In the ever-thinning numbers of veterans who saw service for the Empire, a variety of uniforms being seen among the old soldiers who wore their badges and medals. Detachment from the 5th regiment, the 50th Highlanders, the 88th Fusiliers, the B. C. Horse and the Victoria Volunteer Guard completed the column.

Following the Church of England services at the cathedral, during which the hymns, "Rock of Ages" and "Nearer, My God, to Thee," were sung, the train of mourners proceeded to Ross Bay cemetery, where the committal services were conducted by the Rev. G. H. Andrews, between the firing of the volleys the Pipers' band playing "The Land of the Leal." The "Last Post," sounded by trumpeters from the Highland and 5th regiments, concluded the services.

Amongst the old soldiers present were the following Crimean veterans who saw service with Major Wilson: Capt. Curtis, R. N., Brinkley Robinson, P. C. Fernie and Messrs. Smith and Gordon. Mr. Williams, an Indian Mutiny veteran who also saw service with the deceased soldier, was also among those present.

Most of the patriotic and other organizations of the city were represented at the funeral, and among those noticed at the church were Capt. Clive Phillips-Wolley, Fleet Surgeon Home, George Jay, A. D. McDoull, and others. Many handsome wreaths and floral crosses were sent, a special carriage conveying these to the cemetery. Among the number was a beautiful wreath from the British Campaigners' association, and another from the Imperial Order of the Daughters of the Empire.

The honorary pallbearers were Lieut.-Col. A. W. Jones, Lieut.-Col. Winsby, Major de Salis, Capt. Nash, Rev. Dr. Campbell (chaplain of the 50th regiment), and Col. Wadmore. The bearers, all members of the executive of the British Campaigners' association, were Beaumont, Boggs, Major Christie, D.S.O.; E. C. B. Bagshawe, Sergt. Fleury, Mr. Andrews, Capt. Rant, Major Barty and Sergt. Winkle.

All the funeral arrangements were made by the Sands Funeral company. Amateur Orchestra.—The Victoria Amateur orchestra is well organized and is conducted by professor A. R. Dobson. Rehearsals are held every Tuesday at 8 p. m. Amateur musicians playing string, brass or woodwinds may join if they wish desire to apply at 1134 Dallas road. No fee is charged. The objects of the orchestra are to accomplish improvement in things musical and to prepare concert programmes.

### SOUGHT COURT'S PROTECTION.

Percy Ching Said Joe Get Had Threatened Him Coming Out of Church.

A curious Chinese case amused the frequenters of the police court this morning. The principals were two Chinese lads who gazed at each other malevolently during the hearing, which concerned a charge against Joe Get "that he did threaten Percy Ching with the words 'You better look out for yourself.' I give you some trouble tomorrow."

This diabolical threat was alleged to have been uttered as the pair were coming out of church on Fisgard street on Sunday night. Percy thought no more about it that night, but the next day a stranger came up to him, and without saying a word knocked him down in the mud and inflicted several bruises on his body. Percy immediately attributed the unwarranted assault as a fulfillment of the words of Joe Get. All this Percy told the court in flowery English.

"I think this a good lesson to teach him," he concluded, waving his hand dramatically in the direction of the accused. "To bring him to this court and show him the police will protect me." Hong Ding corroborated the facts. Joe Get strenuously denied ever having uttered the words put in his

mouth by the informant. On the contrary the quarrel had been about the fact that Percy had threatened to take his job by underbidding him in the matter of wages.

Joe Get was warned to keep away from Percy in the future and had to pay the costs of the interpreter.

A pretty home wedding took place yesterday at the residence of Mr. and Mrs. Edwin Smart, 2550 Blackwood street, when their daughter Louise became the bride of Henry William Hitchman, second son of Mr. and Mrs. Hitchman, of Wolverson, Bucks, England. Rev. Dr. Campbell performed the ceremony in the presence of a company of the more intimate friends and relatives of the happy pair. The bride, who was given away by her father, wore a beautiful robe of white crepe de chine with veil and coronal of orange blossoms. Her bouquet was of bridal roses. Her bridesmaid, Miss Carrie Severs, wore pink crepe de chine and carried a spray of pink roses. Francis John Hitchman, a brother of the bridegroom, acted as best man. Immediately after the ceremony the company repaired to the dining-room, where a dainty repast was served, and later in the afternoon Mr. and Mrs. Hitchman left by the Seattle boat for a trip to the Sound cities. On their return they will take up their residence in Victoria.

## SCHOOL BOARD WILL BEGIN NIGHT CLASSES

Limited Course for Winter Adopted; Expenditure on Sports Equipment

The city school board last evening decided to establish a modified form of evening classes this winter, and to leave over the establishment of classes which would involve an expenditure of money for equipment. This course was adopted in view of the present financial conditions which are common throughout Canada.

The classes this year will all be carried on at the High school, instead of at the several schools. The date for their opening has been left with the municipal inspector.

The classes, being some of those mentioned in Inspector Kyle's report, will be for English, arithmetic, workshop arithmetic, building and construction, engineering, mathematics, drafting, bookkeeping, shorthand, type-writing, drawing and design, dressmaking, millinery and cooking, the last three being for women.

It was felt that the programme suggested two months ago by Inspector Kyle would be too expensive and that the limited number mentioned above, which would cost about \$957, would be sufficient to keep the course alive until it was more opportune to secure equipment. Fees and a government grant will somewhat decrease the board's outlay. A minimum of ten persons to each class was decided upon by the board.

The National Association of Marine Engineers wrote, expressing the hope that the board would not discontinue classes this year.

The board will adopt another suggestion of Inspector Kyle, that with regard to the appointment of advisory committees from the various trades. This will be done when it is known what support will be forthcoming for the classes. The inspector was authorized to arrange for the inauguration of the course.

Some curious mistake appears to have been made in the matter of an application made a week ago last Monday to the civic finance committee. An application for about \$290 for equipment for sports was made, apparently by some teachers without the authority of the board. The board was last evening in receipt of a letter from the secretary of civic committees. In this the finance committee of the city council indicated that the board might spend the money for the purpose mentioned, in spite of the fact that the city auditor had advised the civic finance committee that an expenditure for the public school sports' association made in 1913 was illegal.

Trustee Jay explained the circumstances and expressed his surprise at the action of the committee. The board filed the letter and passed a resolution providing that the fund should be provided out of municipal money. The inspector remarked that the sports committee would fall between two stools.

The board decided not to allow any appeal from the patriotic fund to be made in the schools, as it was pointed out that it is a violation of the by-law to allow collections to be made in the schools. While the trustees thought the practice at the High school, where the girls are making articles from material provided from the voluntary offerings in the school was a good one, they decided that they would not allow any requests to be made of the children in the graded schools, as some might be unable to contribute and unpleasant feelings might result.

Reference was made to the happy-go-lucky way (as the municipal inspector expressed it) of the cadet movement in the schools. It was decided to appoint a committee to look into the matter and to provide for a miniature rifle range in the basement of the High school. It was also decided to make provision at the gymnasium of the High school for the teaching staff, but applications from outside bodies for use of the gymnasium were refused.

The board resolved to take up the matter of awarding the contract for the South Park manual training and domestic science department in the immediate future. Until a centre of this character is provided at Oaklands, the board will pay the street car fares of students who must go to attend the North Ward centre.

Some of the shade trees to be provided from the Beacon Hill nursery will be applied for. It is the intention to plant them in the school grounds, particularly the grounds of the George Jay school. The approach to the High school from Fernwood road is to be seeded down.

These employees of the board who have been engaged with the military forces will be paid the difference between their militia pay while on duty and their regular salaries. Thus they will not lose any money because of their absence on their loyal duty.

## VICTORIA TEAM TO REMAIN INTACT

### NATIONALS BOOST NEW LEAGUE

Manager Patrick Has Offered Contracts to Every Player of Last Year's P. C. H. A. Champions

I have tendered every member of last year's championship septette a contract, and unless they wish to refuse, my terms, Victoria hockey team will be again intact this season," was the statement of Lester Patrick to the Times this morning. The Victoria manager further states that the players will report here about the middle of November, so as to be in condition for the opening of the league the first week in December.

There has been talk of several trades in which a couple of the Victoria players will figure. It was rumored that Bobbie Rowe might go to Portland this season, and that one of last year's Westminster players will be brought to the capital. Nothing will be done in regard to new players until the annual league meeting is held at Vancouver next week. The N. H. A. teams are extremely anxious to secure some of the coast leaguers. The Toronto club was considering the purchase of Jack Ulrich last season. The chances are, however, that Ulrich will again be given a tryout by the locals.

## BILLY MURRAY WAS AGAIN PUT TO MAT

Geo. Chip Wins in Fourth Round; Many Important Bouts Booked This Month

This month will be a busy one for the pugilists, no less than a dozen battles being scheduled throughout the United States. Battles in every class from feather to heavies have been arranged. One of the most important of these engagements was the twenty-round battle last evening between Fighting Billy Murray and George Chip, at San Francisco. Chip scored a knockout over the Pacific Coast fighting machine when they battled recently, and repeated over his opponent in the fourth round last night.

A match has been proposed between Harry Wills, a six-foot negro of New Orleans, and Gunboat Smith, champion of American "white hopes." Wills has met and defeated all the California big boys. He whipped Willie Meehan, a "Frisco crack," and on Friday night dropped Charlie Miller, the giant mottomian, in one round. Sam Langford struck a tartar in this man a few months ago in the latter's home town, New Orleans, and while the bout was a ten-round affair, Wills trounced the burly Samuel.

Joe Mandot, the "come-back" has been matched by a New Orleans promoter, to battle Joe Rivers 20 rounds on October 4. Mandot and Rivers met twice on the coast, each gaining a decision in 20 rounds. A third meeting would draw well. Two heavy-weight bouts of interest will be staged at New York this month. Sam Langford and Joe Jeanette meet in a ten-round encounter to-day for about the fifteenth time, while in four days Pueblo Jim Flynn and Al Reich will clash in a ten-round bout in New York. Charlie White, of Chicago, who advanced into the limelight by a ten-round verdict over Willie Ritchie, is a busy boy. He has two matches in sight, his first combat being a ten-round bout with Stanley Yookum, in Kenosha, Wis., October 5, while Milwaukee promoters will match him with Leach Cross on October 16. He will again battle the latter part of October with the winner of the Murphy-Wolgan fight.

There is also talk of a return bout between Willie Beecher and Johnny Dundee at Vernon, Cal., on Thanksgiving Day. These two New York mitt artists battled Monday night in California, the result being a twenty-round draw. Kid Williams has an undisputed claim to the world's bantam title by his easy defeat of Kid Herman at Pekin, Ill., Monday, whom he dropped in three rounds.

## GAME PLENTIFUL IN SOOKE THIS SEASON

With the near approach of the open shooting season there is at present much comparison of notes among the sportsman scouts who have been afield during the past few weeks with the result that if the signs do not belie the situation, Sooke harbor and the territory contiguous will be this season the specially favored mecca of the hunters.

The reasons are pertinent. The section in country was lightly hunted last season and partially as a consequence is this year teeming with grouse and quail—the big blues especially strong, while the deer are in excellent numbers, with a few cougars and bears to excite the ambition of the riflemen. Again, the progress of waterworks construction at Sooke lake seems to

make-up of the forward line is rather uncertain. Walter Small, Tommie Dunderdale, Skinner Poulin, Dubble Kerr, Bobbie Rowe and Ulrich comprise a sextette from which the local attack will be selected. Of course there may be changes in the above team, particularly if there are any trades, while the possibility of a raid by the new eastern league also looms up.

Montreal exchanges convey the news that the Nationals are going to put up a terrific fight to secure admittance into professional hockey. The officers of the French-Canadian club announce that they will not make any further moves as regards the N. H. A. franchise. They are now ready to go ahead with their proposed league. Not only are they angling for teams in New York and Boston, but they also are negotiating for clubs in Ottawa, Toronto and Hamilton. This would give them a very solid six-club organization.

It is just a question whether or not this circuit will be too expensive in the matter of railroad fares. The N. H. A. clubs found it rather hard to make the Toronto to Quebec jump last winter, but if the new league can corral the major hockey stars, there is no reason why the new circuit should not make good. Six-man hockey has never been a success in Ottawa or Toronto, so that by reverting to the seven-man game, the new league will play its trump card for the support of the eastern hockey fans.

## INTER-CITY TEAMS MAY BE CHOSEN

P. N. A. Announces Selection Committee for Panama-Pacific Games; Prospects

In a letter to W. H. Davies, of the Vancouver Island A. A. T. Morris Dunne, secretary-treasurer of the P. N. A., states the association has invited all Victoria athletes to compete in the try-outs for the P. N. A. team that will compete at the "Frisko" exposition. Mr. Dunne states that through some error the northwest selection committee for 1915 has been incorrectly announced. The committee as chosen at Seattle consists of Burdick, of Spokane; Goldsmith, of Seattle; and Secretary Dunne, of Portland. Victoria's registration commissioner for the year is Harry Skuce, of the V. A. A.

As regards a team for the "Frisko" exposition, Mr. Davies says that it might be possible for Vancouver and Victoria to combine on such a project, but it will be a hard proposition for the local clubs to bear the expense of sending athletes to the P. N. A. trials at Portland. Such a trip will cost at least \$50 per man, and it is a certainty that the athletic clubs of Vancouver and Victoria are not going to send many competitors at that rate. The club house of the Vancouver Athletic club has been closed up because of lack of funds and only the Commercial Athletic club is now in existence there. It is altogether probable that the P. N. A. will have to make some arrangements whereby the Victoria and Vancouver athletes will be given grants to compete at the trials, which would cover their expenses. Otherwise the international competition at the "Frisko" games will be somewhat lacking.

## MAY SUCCEED DOOLIN.

Philadelphia, Oct. 1.—It was reported in baseball circles here to-day that unless there is an unexpected hitch, John B. Lobert, third baseman of the Philadelphia National League team, will be made manager of the club, at a meeting of the directors of the organization to be held this week. The contract of Charles E. Doolin, who has managed the Phillies for several years, expires with the close of the present season.

Lobert has been with the local team since 1911, when he figured in a big trade between Philadelphia and Cincinnati clubs.

The bout was promoted by James W. Coffroth. Although no arrest had been made early to-day, Police Captain Mooney, in whose district the fight was held, said that warrants would be sworn out as soon as the formalities permitted against everyone directly connected

The following Coast leaguers go to the big league in 1915: Klepper, Venice, to Chicago Sox; Alexander, Oakland, to the St. Louis Nationals; Ehmeke, Los Angeles, to Washington; Quinlan, who seems to be highly prized by the White Sox; Kores, the Portlander, pulled by the Giants, but who has the far shown no real desire to leave; Captain Rogers of the Beavers, sold to Cleveland.

Big Weiser Dell, of the Seattle club, was married on Saturday to Miss Eleanor Morgan, formerly of Butte, Mont. Mr. and Mrs. Dell will spend the winter in Seattle.

Steve Evans, of Brooklyn, has batted himself into a tie with Bannie Kauff, of Indianapolis, for the batting leadership of the Federal league. Each is hitting .351. Next comes Chase, Buffalo, .356.

Kauff leads the base stealers with 65, and Zwilling, of Chicago, has most home runs, 13.

Top notch pitchers are Hendrix, Chicago, with 27 won and 9 lost; Ford, Buffalo, 18 and 6, and Kaiserling, Indianapolis, 17 and 8.

There will probably be sweeping changes in the lineup of Western Canadian league clubs in 1915. At the annual meeting of the league held at Medicine Hat only six clubs were represented, Moose Jaw and Saskatoon failing to send delegates, and it is hinted that both of these clubs will drop out of the league, leaving Calgary, Edmonton, Regina and Medicine Hat to battle for the gonfalon in 1915.

Madison, Wis., Oct. 1.—Participation in intercollegiate rowing contests by university of Wisconsin crews was ordered discontinued by the faculty as the result of an investigation by the medical faculty, showing that a large number of crew candidates had developed hypertrophied hearts. Twenty-eight of the 56 freshmen and 20 of 23 "men" showed this condition.

## BAYLEY AND O'LEARY ARE MATCHED AGAIN

Victoria Lightweight Will Box Titleholder In Nanaimo on October 17

Joe Bayley and Johnny O'Leary were matched this morning by Promoter McDonald to battle for the third time for the Canadian lightweight title, the contest to take place at Nanaimo on Saturday, October 17. Bayley has taken a long rest to give his injured hands a chance to heal before again challenging the Seattle holder. The doctor has declared his hands are fit, and so he has again been given a chance for the belt. Immediately after signing articles, Joe, accompanied by Morris Condon and friends, left this morning on a hunting trip for one week, and will settle down to active training upon his return. He has been out on a fishing party and is now in excellent shape. Special trains are to leave Victoria on the afternoon of the battle, and it is likely that a troop of Seattle enthusiasts will make the journey to the Coast City.

O'Leary has been training in Seattle for some time, and is in the pink of condition. He has been flooded with challenges from various lightweights in the northwest, but Bayley was the fortunate one to get the chance for the championship.

## VANCOUVER TO CUT LOOSE ALL VETERANS

### Champions Will Depend on Youngsters; Western Canadian League Changes

According to Bob Brown, the Vancouver baseball magnate, the Northwest league champions will be a greatly changed aggregation next summer. Brown passed through Victoria yesterday on his way up to Cowichan lake, where he will spend a couple of weeks hunting. He is now lining up a large squad of youngsters whom he will give a thorough tryout in 1915.

While the Vancouver club copied the pennant this year, the Beavers were not a striking success financially. The mainland club was one of the highest priced ball clubs in the league. Such veterans as Harry Cheek, Pug Bennett and Ben Hunt drew down major league salaries. Vancouver did not draw nearly as well at home this season as in previous years and while the Beavers sold Harstad and Doty, the price obtained for these players will all have to go towards meeting the season's bills.

Boston amply demonstrated yesterday that they are in a class by themselves in the National league. George Stallings has been carrying his team along at a terrific clip for the last three months. There has been no sign of a break in the wonderful playing of the Braves. Yesterday at New York they hammered McGraw's pet twirlers to all corners of the polo grounds. The bean-eaters have developed a tremendous punch with the willow of late. It is this heavy batting combined with their peculiar twisting stuff that is going to give Boston a chance in the world's series.

## HAROLD HUDSON IS ONCE MORE CHAMPION

Master Harold Hudson successfully defended his title as junior tennis champion of British Columbia yesterday afternoon when he defeated V. McKinnon, 6-1, 6-2, in the finals at the Victoria Tennis club. Miss Lillian Michaels won from Miss Olive Kilpatrick, 6-1, 6-1, for the girls' title. The courts were rather soft from the recent rains, but the quality of tennis displayed would have reflected credit upon senior players. The winners hold the Charles Edward Pooley cups for a year in addition to the British Columbia titles.

## NINETIETH TWELVE AFTER MANN CUP

Winnipeg, Oct. 1.—The Ninetieth Lacrosse club, which won the senior championship of Manitoba, celebrated its success when the players and members of the executive indulged in a quiet banquet at the Royal Albert hotel. Col. J. W. DeC. O'Grady, president of the club, was unable to be present as he is visiting his sons at Valcartier. During the course of the evening, expressions of regret were expressed at the Ninetieth team being unable to secure dates with Vancouver this year to play for the Mann cup and championship of Canada. The boys are determined to go right in next year and make an effort to lift the coveted mug from Calgary.

## THREE CARDINALS TALK ABOUT THE GREAT WAR

British, French and Belgian  
Prelates Give Their Views;  
Allies on Side of Righteous

L'Italia, the leading Catholic newspaper in Northern Italy, publishes most interesting interviews with three of the cardinals assembled in Rome for the recent conclave, the representatives of England, Belgium and France.

Reporting his interview with Cardinal Bourne, Archbishop of Westminster, the correspondent writes: "Your Eminence," I asked, "is the war popular in England?" "Most popular. It has created unanimity in the nation. It has united all parties and fused them all in one sentiment against the enemy. Irishmen, Unionists, Radicals, Conservatives, Ulstermen, have forgotten their old quarrels and sworn to overcome the enemy. The English cherish no illusions; they thoroughly appreciate the gigantic efforts that are necessary; but the unanimous and reasoned consensus of the nation permits us to believe that final victory will reward the allies."

"Will your eminence allow me to emphasize this unanimous agreement in England as an attestation of your eminence?"

"Without the slightest difficulty. It is an attestation of a fact which no one can doubt. If Cardinal Gasquet were here he would say just the same."

"The Archbishop of Malines."

Cardinal Mercier was first asked about the state feeling in Belgium, and replied: "It is the feeling of a people that has unwavering faith in its independence. In the future destinies. The war has created a living and unanimous agreement; there are no longer any parties among us. All hope for the salvation of the country, and it is impossible that there should be any delusions on this point. Socialist and Radical journals speak with the language of reverence and announce the prayers which are offered in the churches for the Fatherland. I rejoice that it has been a Catholic government which has assumed the attitude for which Belgium is suffering at this moment."

"I have met people in Rome who have said to me, 'Why were you not content to fire a few shots pro forma against the German army?' You would have saved the honor of your country and escaped the misfortunes which you are now suffering." I confess this language is to me deeply insulting. "What?" you would have me play a comedy? Never! When it is a question of the independence of a country compromise is impossible. And note that on this point our agreement is unanimous. When our government announced its reply to the German ultimatum, it found all Belgium in agreement. Mobilization took place at once, and this was a blessing, because, had we acted otherwise, we should have been victims of the Germans. You cannot imagine the sentiments of the Belgian people. I have received letters that have drawn tears from my eyes. A voluntary army was formed in the shortest time."

After a brief pause the cardinal assumed a sadder tone. "The news from the theatre of war is gloomy. Poor Belgium and poor France! They are tried to the uttermost. Have you read that Louvain has been razed to the ground and even the university destroyed? Why this outrage on civilization? Here the cardinal's voice failed; he seemed to be weeping. It is impossible to describe his words, his gestures, and his profound emotion."

On the other hand, he hopes for final victory. His hopes rest on sentiment, on faith, and on history. It cannot be that a valiant people like the Belgian, which has fought like a lion for national independence, will be finally crushed. "Let us hope," said the cardinal in conclusion, "that we may soon be able to announce habemus Pontificem, and a pontiff who from the chair of Peter may recall Europe so necessary at this moment. The head of the Catholic church will certainly have a noble mission to fulfill before Europe and the civilized world."

French Hopes. Cardinal Amette began as did Cardinals Bourne and Mercier, by emphasizing the national unanimity. "There are no longer any parties in France; all form one great family. The moral of the nation could not be better."

ter. We are all buoyed up by the firm hope that, though we shall have to pass through a most severe trial, the final result cannot be unfavorable to France. We are grateful to heroic Belgium, and we believe that France will come forth from this conflict purified, fairer and grander than ever.

Of the effects of the war upon religion the cardinal said: "They could not be more consoling. Nearly all our soldiers have felt in facing the fire an awakening of the faith of their fathers, and have begged to confess and to communicate; afterwards they fight like lions. About 20,000 priests are under arms as combatants. Before engaging in battle the soldiers confess to these, their soldier-comrades wearing the same uniform, and then rush against the foe. Their officers give the example of this faith."

"When France recovers her religious faith by passing through a sea of blood after going through terrible times like those we are experiencing, though rendered glorious by the unanimous agreement of the great French family, she will be able to resume her march on the road of civilization." Cardinal Amette (concludes the correspondent) spoke with the calmness and solemnity of one who sees in the distance a future in singular contrast to the bloody present.

## VICTORIA DRUGGIST PLEASES CUSTOMERS

Hall & Co., 702 Yates Street reports customers greatly pleased with the QUICK action of simple buckhorn bark, glycerine, etc., as mixed in Adler-ka. This simple remedy drains the old foul matter from the bowels so THOROUGH that ONE SPOONFUL relieves almost ANY CASE of constipation, sour or gassy stomach. It is so powerful that it is used successfully in appendicitis. Adler-ka never gives and the INSTANT action is surprising.

STURBAN COLLEGE OF MUSIC, 188 Fort Street. Telephone 1988. I teach all, or almost all, instruments in ordinary use. Many years' experience have made a special study of the art of teaching the piano and violin. The 1914 gold medal prize was awarded by me for close application, careful practice and steady progress.

Miss H. Fletcher, 304 Byron street, Oak Bay (a ten months' student only). Entries and enrolments for the 1915 gold medal prize will be received until the 1st of September to the 31st of October next, thus giving an unbroken period of eight months during which the pupil will be carefully taught as well as impartially noted. As far as the winning of these valuable and beautiful medals is concerned, the "new beginner" and the advanced student stand on an absolutely equal footing. My present term is for ten or two half-hour lessons a week. No entrance fee, enrolment guarantee or other charges are asked at present without adding any of my list.

SPORTSMEN AND FARMERS.

To the Editor:—Could you give your readers your judgment in regard to whether poachers have a right to enter upon farmers' unfenced land to hunt and shoot?

Farmers try to keep them off their lands by buying and putting up notices at considerable expense, only to have them riddled with shot and bullets as soon as the shooting season opens.

Farmers are anxiously asking, what is the law? Could you enlighten them through your paper?

## EXPECTS TRADE TO EXPAND AFTER WAR

Vice-President of G. T. P. Railway Visits City; Made Long Tour

J. E. Dalrymple, vice-president of the Grand Trunk Pacific railway, arrived in the city this morning in company with a small party of officials. He will remain in the capital for three days.

In conversation with the Times today the vice-president remarked that the travel business had been pretty well knocked on the head by the war. Money was not so plentiful and when a man possessed some solid cash in these days he was loath to part with it. But there had recently been a "spurt" in the freight business, which was at the present time fairly prosperous.

The war affected the whole of the continent. Wherever he had traveled in the United States he had found the people wholeheartedly in sympathy with the people of the British Empire in this war. They realized that war in itself is a barbarous thing and it was somewhat of a shock to civilization to

find the terror hanging over a good part of the civilized world, but when American people had studied the incidents leading up to the outbreak of hostilities, they had more than ever felt convinced that Britain's quarrel was a just one.

While not prepared to go into details, the general vice-president was strongly of the opinion that the end of the war would bring a new trade era to Canada, with a great enlargement of exports and a greater volume of trade of all classes with the British Isles. Such prosperity would be reflected justly in the railways, which would also benefit by the changed conditions. Canadian manufacturers would be quite justified in going right after the trade which the Germans had let free by their declarations of war.

There could be no alternative in the result of the great war. Germany must be defeated, for on the result depended the future of the whole British Empire.

The vice-president has just returned from a tour of inspection over the Grand Trunk Pacific railway. In company with E. J. Chamberlain, the president, and Morley Donaldson, vice-president, he has been up to Prince Rupert. His companions went direct east from Prince Rupert, while Mr. Dalrymple came south to visit this city, Vancouver and Seattle.

He was much impressed with the rapid development being carried out all along the line. The country was being opened up in a splendid manner, and one result of the war would be that even more people would be induced to go on land in northern British Columbia and throughout the whole of the Canadian west.

## MANY ARE HELPING

Ladies' Musical Club Receives Generous Help in Arranging Patriotic Entertainment.

The patriotic spirit runs high at the present moment. Messrs. Weiler Bros., Ltd., who placed their advertising space in the daily papers at the disposal of any patriotically-inclined organization, have kindly consented to give this to the Ladies' Musical Club for one day during the week in each of the daily papers, in order to advertise the patriotic concert to be given next Wednesday evening at the Royal Victoria theatre.

Everything points to a very successful entertainment. Mrs. Macdonald Fahey, the gifted singer, has prepared six posters advertising the concert, and these have been placed in conspicuous windows where "the who runs may read."

The programme is of a character which should appeal to all citizens of the empire. The Belgian National Anthem, which perhaps for the first time in the history of the little nation is becoming generally known, will be played by the orchestra early in the proceedings. The French section will include violin compositions by Beethoven and Couperin. The Marche Russe will be played under the Russian section, as well as some Tchaikovsky music. It is anticipated that one of the most popular numbers of the entire programme will be the singing of "It's a long, long way to Tipperary," in which the soloist, H. J. Davis, will be assisted by a chorus of the Highlanders.

The concert will take place next Wednesday evening, October 7. The box office will open for the sale of tickets on Monday, October 5.

## BEGIN COMPILING

### CIVIC VOTERS' LISTS

Two Months Yet for Persons to Qualify; Much Business for Aldermen

Considerable business will be before the aldermen to-morrow. In the morning a deputation of moving picture operators will discuss with the aldermen the by-law which has already been before the city council. The effect the measure will have on the industry after an examination for operators and apprentices has been set will be looked into.

To-morrow afternoon the streets committee will meet at 3, half an hour earlier than usual. The members will hear an application that the building restriction be lifted in order that a frame building may be put up on the burned area, which is in the Class A limits. The desire is to use the building as a miniature rifle range during the progress of the war. The promoters will be heard in support of the proposition.

In the evening a committee from the Trades and Labor council will wait on the aldermen and make reference to the matter of unemployment, making particular objection to the \$2 a day pay on relief work. The deputation will suggest that either the plan of three days' work week or shifts of one week duration each be adopted.

Notice has been given of the regulations under which a citizen may qualify to be registered on the civic voters' list for 1915. To-day the first registrations under regulations governing the agreement-holders' franchise were made at the city assessor's office. While the law allows registrations to be made until November 30, the earlier they are made the better the officials are pleased as the lists can be sent to the printers more expeditiously. It should be remembered that the agreement-holder cannot qualify unless he has paid his taxes prior to the date of registration. Household and license-holders must also make a statutory declaration.

Some information was forthcoming when the city council met the divisional engineer of the Canadian Northern Pacific railway yesterday afternoon to endeavor to reach a basis of agreement for the proposed bridge across Selkirk water. Alderman Todd presided, the effort being to find common ground upon which the company and the city might agree as to the construction of a more substantial bridge than that against which the council has lodged an objection at Ottawa. Further attention will be given to the subject.

In connection with contributions to the Patriotic Aid Society, the feeling is being freely expressed by the employees at the city hall that the city has not done right in declining to pay the difference between the militia-men's pay and their regular earnings in the city service. Many hold that the departments should make up the difference to the absent men before any individual contributions are made by the civic employees to the central fund. The attitude of the aldermen has been that the total of the national fund will be known soon, and that this margin of loss to the militiamen is certainly a suitable object for the attention of the Patriotic Aid Society.

Hence the aldermen feel that action by the council in this regard is unnecessary. A misunderstanding appears to have arisen with regard to the vote of funds by the finance committee of the city council, through the school board, for the public schools sports association, a matter to which reference was made at the school board meeting last evening. The sum was placed in the estimates of the school board, and although the auditor declared a vote of this character illegal, the aldermen offered to find the money themselves despite the solicitor's advice.

## DEPOT HELPING MUCH

Store of Local Council of Women Contains Many Useful Commodities; Home-Made Pastry.

The most delicious home-made buns, pies, bread and cake may be had daily at the local council of women's depot, 637 Fort street, and already several housewives are leaving daily orders for this commodity. This afternoon a consignment of apples, donated by Mr. Benich of Ganges Harbor, arrived, and the fruit is on sale at the depot at very reasonable prices.

In this connection the management reports that a donation of paper bags would be most acceptable, as customers require some receptacle to carry away their purchases. A further donation of lavender would also be very welcome.

Among the very interesting articles received at the depot is an envelope described as "An original Mulready envelope." Penny postage was introduced about 1838, and the envelope is a remnant of the postal system in vogue up to that time. A hand-drawn Sheraton work-table, with a deep central pocket and a frame containing compartments for thread, ribbons, needles, etc., is for sale at the depot.

This morning a number of Christmas cards were placed on sale at the depot, these having been made by a mother and her two daughters. A bright Mexican serape has also been added to the collection of beautiful scarves and rugs which are for sale at the depot.

In its primary capacity of employment bureau the depot is doing splendid work. Among those who registered recently is a lady who is expert in the restoring of old prints and engravings, and a highly recommended ladies' tailor has also given her address and terms to the management.

The tea rooms are proving profitable, and are, at the same time, finding favor with many who do not customarily take tea when they are in the city. A gift of home-made cakes would be acceptable for this department.

## MEMBERS DISCUSS

### WAR-TIME CONDITIONS

Committee of Trades and Labor Council Hears Reports and Makes Suggestions

A very lengthy meeting was held at the Labor hall last evening. The general committee on unemployment formed several days ago received reports from the various committees, which had been in operation during the last two weeks.

One of the most interesting discussions of the evening, and one which brought out considerable divergence of opinion, was that relating to the course to be adopted by the committee which is to wait on the aldermen to-morrow evening. Objection was taken to the pay for the proposed relief work to be started by the city council being limited to \$2 a day, and the plan for half-time shifts, the men to be employed either three days a week or in alternate weeks, was strongly favored. It was felt this plan would lead to as many men as possible being engaged for the work.

A proposal which failed to carry sufficient votes was that the men work six hours a day for \$2 a day. Eventually it was decided to lay the matter over till the meeting with the aldermen.

Objection was taken to a comment alleged to have been made regarding the last week of some few men to the city to secure immediate relief. The comment was said to have been made that these men were undesirable. The committee felt that the city ought to do its duty for such men without going into nice distinctions about their antecedents.

When the registrations made at the various bureaux, conducted under the auspices of the Trades and Labor council for four days last week were tallied, it was found that 1,379 persons had registered, 92 of these being women.

Christian Sivertz presented a report from the committee which had interviewed the government and the city authorities, and D. W. Poupard reported for the committee dealing with the problem of providing relief for indoor workers, unskilled, skilled and semi-professional.

A classification of those registering showed that 527 single and 763 married men had registered, 48 single and 32 married women and 115 widows. The total number of families was 694, and there were 1,421 children dependent upon the breadwinners. The average in a family was 2.35 persons dependent on each man's, and 2.31 on each woman's earnings. Married people with no family numbered 290, the largest number in a family being 13. One widow had eight children dependent upon her.

The committee adopted a suggestion that the body be styled "The Unemployed League of Victoria and District." Speaking of unemployment among women, the committee dealing with indoor employment said in part: "The committee feels that the general committee should make use of the press to point out to the people who are employing Chinese help that such action is decidedly unpatriotic, particularly at this time, great numbers of white domestic help being unemployed. It is suggested that hand-bills be distributed directing attention to the situation and explaining the problem, and that it is the duty of the white people to protect their fellow countrymen."

We also recommend that the legislative committee approach the provincial government with a view to getting the hours of the nursing staff at the Royal Jubilee hospital reduced from 12 hours to 8 hours to make room for more nurses or probationers, these to be drawn from local sources.

## SUSPENSION CONTINUES

New State of Garden City Water Supply Lawsuit Arrived To-day.

A motion to suspend the injunction granted some time ago restraining the municipality of Saanich from supplying Garden City park with water obtained on a system provided for in a local improvement by-law in which the people of Garden City park did not participate was enlarged for a week by Mr. Justice Murphy in supreme court chambers this morning.

The injunction restraining the municipality from supplying this area was suspended until October 1 to enable a new water system for Garden City park to be installed. The motion to continue this suspension for four months on account of the non-completion of the new system will therefore be argued a week from to-day.

H. B. Robertson appeared for the municipality and F. A. McDiarmid for J. W. O'Connell, who brought the action originally in behalf of the ratepayers assessed by the by-law in question.

## Personal

A marriage of interest was quietly celebrated at St. Mary's church, Oak Bay, last night yesterday between Lieut. Colonel Walter H. Cunliffe, late Oxfordshire (52nd) Light Infantry, and Annie Catherine, eldest daughter of the late George Meakin, of Callingswood Hall, Burton-on-Trent, England, and of Mrs. Meakin, of Victoria.

The bride was given away by her brother, R. A. Meakin, of the B. C. Horse, and H. H. Orr acted as best man. The bridal chorus from Lohengrin and the Mendelssohn Wedding March were played by H. G. E. Pocock during the services, following which the bride and groom were taken to the home of the bride's mother to partake of a delicious wedding breakfast. Col. and Mrs. Cunliffe, who are spending their honeymoon on the mainland, will return to Victoria to make their home here.

Alleges Wattlelet and McConnell Misrepresented State of Club's Finances

Ex-Alderman W. H. R. Humber went in the witness-box this morning to substantiate his claim against Thomas P. McConnell and L. A. Wattlelet for the return of the cash and real estate which he transferred to those men in exchange for 75 shares in the Victoria baseball club. Misrepresentations of various natures are alleged in the claim which Mr. Humber makes against the two former owners of the baseball club. The price paid for the stock was \$3,900 cash and two Gorge road lots valued at \$3,600.

The trial of the action opened before Mr. Justice Murphy in supreme court this morning with F. A. McDiarmid presenting the plaintiffs' case and Frank Higgins defending Messrs. McConnell and Wattlelet. Mr. Humber stated that when he was approached to buy the club the defendants represented to him that the aggregate liabilities of the club were under \$2,000, whereas he found them to be greatly in excess thereof. A debt of \$480 was owing to Manager Delmas which the defendants denied and various other items of indebtedness were alleged by Mr. Humber.

Mr. McConnell had told him (Mr. Humber) and his solicitor, H. H. Shandley, that all the taxes for 1913 were paid. The witness described how Mr. McConnell had pulled certain papers out of the safe saying that those were the receipts and then put them back without showing them to Mr. Shandley. As a matter of fact, Mr. Humber says he found that the local improvement taxes were not paid and that another tax bill of \$700 was just due. That the annual taxes were \$1,925 is another statement which the witness credited the defendants with making. Mr. Humber says the annual taxes are about \$1,850.

The advertising space on the fence was relied upon by Mr. Humber, on representations of the vendors, as an asset worth \$1,000 when he bought the club, but he had afterwards found that the contract for the fence advertising had been let and the defendants had collected most of the money.

That the concessions to sell refreshments, rent cushions, sell score cards, etc., had not been let is another misrepresentation Mr. Humber says the plaintiffs made to him. He alleges that Ed. Gleason had contracted for these concessions. Various other misrepresentations are also relied upon by Mr. Humber.

That Mr. McConnell offered to pay last year's taxes by way of settlement of the trouble before a writ was issued and that he subsequently offered to pay \$1,000 for the same purposes are two allegations made by Mr. Humber in the witness-box. Following the issue of the writ further negotiations without prejudice were carried on, but Mr. Humber rejected all offers and on April 22 the defendants went away to California and were not served with the writ until nearly June 1.

## OBITUARY RECORD

The funeral of the late Mrs. Harold Payne, of Saturna Island, was held at Mayne Island on Monday, September 28, friends at the wharf singing the harvest hymn, "We Plough the Fields and Scatter," as the remains were being borne ashore from the S. S. Queen City. Rev. Canon Paddon conducted the services, during which the hymn, "Forever With the Lord," was sung. "On the Resurrection Morning" being sung at the graveside.

The funeral of the late Sarah McKee, wife of Angus McKee, took place yesterday afternoon from the residence, 93 Cambridge street, many friends of the deceased attending the obsequies, and a great number of beautiful flowers testifying to the esteem in which she was held. Rev. Joseph Philp conducted the services at the residence, and also at the grave, where an additional Masonic service was conducted by officers of the Victoria Chapter, No. 12, Order of the Eastern Star, of which Mrs. McKee was a member. The hymns sung were "Rock of Ages," "O God, Our Help in Ages Past" and "Called From Labor to Rest." The pallbearers were all past masters of the order to which Mr. McKee belonged, being Messrs. W. W. Northcott, S. W. Edwards, W. H. P. R. Chdale, G. D. Christie, J. B. McCallum and Stephen Jones.

The funeral of the two-months-old daughter of Mr. and Mrs. Eckman took place this afternoon from 1288 Walnut street, Rev. Dr. Campbell officiating. The arrangements were made by the Sands Funeral Furnishing Co.

**Sunday Topics.**—Two topics of unusual interest will be under discussion at St. Paul's Presbyterian church, corner of Henry and Mary streets, Victoria West, on Sunday. The morning session will undertake to answer the question: "Is God as happy as He can be?" and at 7 o'clock in the evening the minister, Dr. H. N. Maclean, will preach on "The Greatest Fight in the World."

## SAYS GREECE FAVORS

### CAUSE OF ALLIES

D. K. Chungranes and Family Return From Extended Trip to Continental Europe

That the feeling of the populace in Greece and Italy is strongly in favor of the allies is the opinion of Demetrius K. Chungranes, the well-known fish and poultry merchant of this city, who, with his family, has just returned to Victoria after a prolonged visit to his native land of Greece and a tour in Italy.

The family reached Victoria only after many adventures, during which the eldest son, George, was twice arrested on suspicion of being a spy. The ship they traveled by was held up three times; once by a French torpedo destroyer in the Mediterranean, once by British ships at Gibraltar, and lastly by a British man-of-war outside of New York. Mr. Chungranes brought back to Victoria with him his younger son Constantine, who has been attending school back in Greece for several years.

When war broke out the party was at Elypos, the famous Grecian hot springs. As soon as the news became general everybody left the resort and made for home, the Chungranes party traveling back to Athens at full speed. Here they had to stay several weeks because of their inability to get a boat to take them away. They finally got away on a Greek boat in a temperature of over 100 in the shade and with a passenger list on a comparatively small vessel of over 700 people. The discomforts of the journey can be better imagined than described, especially as the cold storage gave out a few hours after leaving Greece. Among their fellow passengers were the professor of Greek at Columbia university, and two daughters of the vice-president of the Standard Oil Company.

Mr. Chungranes states that the parliament of Greece is strongly in favor of the allies, though Greece is not likely to go to war until the Turks commence hostilities. The party witnessed in Athens the return of hundreds of Greek refugees from Smyrna, who brought back lurid accounts of maltreatment of Christians in that city by the Turks, who had driven them from their homes and looted their possessions.

On the voyage the boat called at Palermo and there the party had an opportunity of gauging the feelings of the Italian people towards the war. These they found to be entirely in favor of the allies, as both the newspaper comments and the talk of the people showed.

In one Greek port the travelers saw a lot of German ships unable to leave, being held in neutral waters for fear of the allies' cruisers outside. The strictness of these patrols was very strict, as indicated by the fact that the ship the Victorians were on was stopped and fully searched before being allowed to proceed.

**Thanksgiving Services.**—Harvest (thanksgiving) services will be conducted this evening at 8 in St. John's church by the Venerable Archdeacon Scriven. All the city clergy have been invited to attend. Special music and hymns will be rendered by the choir.

**Rummage Sale.**—A rummage sale is to be held in the Scott building, corner of Hillside avenue and Douglas street, on Tuesday and Wednesday next, October 6 and 7, under the auspices of the Anti-Tuberculosis society. Any one wishing to contribute house furnishings, clothing, etc., should telephone 754.

#### ARE LESS PLENTIFUL

Stock Sold Higher To-day;  
Monarch Also Goes Up in  
Oil List

A distinct broadening tendency was to be noted in Portland Canal to-day, sales being made at a higher figure than yesterday.

It was evident that offerings did not go begging, for same were snapped up eagerly and at the finish were not below 3c.

The set-back in price recorded of late has engendered fresh buying power in the stock which it is not easy to gain.

Coronation Gold acted nobly, but stood firm throughout the session with support continuing strong.

Monarch Oil rose. Wire advices from Calgary are to the effect that sales are being made there in the issue at \$1.65 and thereabouts. Most of this department move within narrow limits, however, consequent on the dearth of speculative interest.

### VANCOUVER'S DAILY CRIME.

Vancouver, Oct. 1.—Entering a Corvado street jewelry store within three minutes after a policeman had left it last night at 9:30, two men held up the proprietor, Max Grossman, and relieved him of \$10,000 worth of diamonds, enforcing their demands at the point of a gun. The store is in the heart of the city. With the coolness of old timers the two men entered the store and, while one kept an eye on the street, the other rapidly took away the large pile of diamonds which Mr. Grossman was putting in the safe.

### DUTY OFF IMPLEMENTS; A LARGE PREFERENCE

Hon. Joseph Martin, Who is  
Re-entering Dominion Politics,  
States Leader's Views

Winnipeg, Man., Oct. 1.—Hon. Jos. Martin, M. P. for St. Pancras East, London, is in the city on his way back to Vancouver, from Ottawa.

Mr. Martin has retired from British politics, although he will retain his seat until the dissolution of the present parliament, and has taken up his residence again in Vancouver, where he will resume his legal practice. He also proposes to interest himself anew in Canadian politics and to-day said in part:

"Through the good offices of a mutual friend, Sir Wilfrid Laurier and I had an interview recently with regard to the general position of the Liberal party. After a thorough discussion of the position and intention of the party I found that I was able to accept Sir Wilfrid's suggestion that I should again take an active part in Dominion campaigns.

"Sir Wilfrid has invited me to assist the party in Manitoba, Saskatchewan, Alberta and British Columbia. This is not intended to affect anybody or to interfere with local arrangements. My work will consist in endeavoring to convince the voters in the west that it will be in their interest, especially now that they have such a large addition to their representation, to support the Liberal party.

"I am authorized by Sir Wilfrid Laurier to state that it will be the policy of the Liberal party to take the tariff entirely off agricultural implements of every kind and description, large and small, and this will also apply to mining machinery and sawmill machinery.

"The Liberal party will also, if returned to power, increase the British preference. The exact increase has not been determined on, but if I have my way it will be a very large increase indeed. Of course, the policy of free wheat to satisfy the recent United States tariff act will be granted by the Liberals.

"If I am elected a representative I will be content with nothing less than a tariff which fully recognizes the interests of western farmers and of all the people in the west who depend on the farmers. Sir Wilfrid has ceased all campaign work during the war, and so far as I am concerned this line of policy will continue."

### NAVAL ENGAGEMENT OFF RUSSIAN COAST

Paris, Oct. 1.—7.35 a. m.—A Petrograd special to the Havas Agency dated September 30, says:

"The details of the naval engagement which took place September 24 off the coast at Windau, a Russian seaport in Courland, on the Baltic, have been made public.

"It appears that a German squadron, comprising forty ships of all classes, appeared off the harbor and was prevented from landing forces by the heavy fire from the forts. One officer and two sailors were killed and three more were wounded.

"The ships withdrew, but on the day following two cruisers returned, opened fire and destroyed the lighthouse. They killed a civilian and a number of soldiers, but were driven off again by the fire of the forts."

### MONTREAL'S MEMORIAL TO KING EDWARD VII.

Montreal, Oct. 1.—With soldiers presenting arms and bands playing the National Anthem, His Royal Highness the Duke of Cornwall, unveiled the King Edward VII statue in Phillips Square this morning.

It was a striking company—soldiers in rifle green, the picturesque uniform of the Highlanders, troops of Boy Scouts and cadets of various corps. A troop of cavalry which had escorted the royal party to the square added an additional touch of color to the brilliant scene.

Their royal highnesses were received at the statue by his worship, Mayor Martin, who represented the city of Montreal, and the members of the King Edward Memorial committee.

Sir Thomas Shaughnessy, president of the committee, welcomed the governor-general in a short address. He was followed by Sir Alexander Lacoste, former chief justice of Quebec.

The Duke of Cornwall, in his address, given in both French and English, thanked Montreal for being the first Canadian city to erect a memorial to the late king.

Mayor Martin, in a brief speech, accepted the gift on behalf of the city of Montreal and handed the unveiling cord to his royal highness, who unveiled the statue amid ringing cheers.

### INDIAN TROOPS ARE FIGHTING IN FRANCE

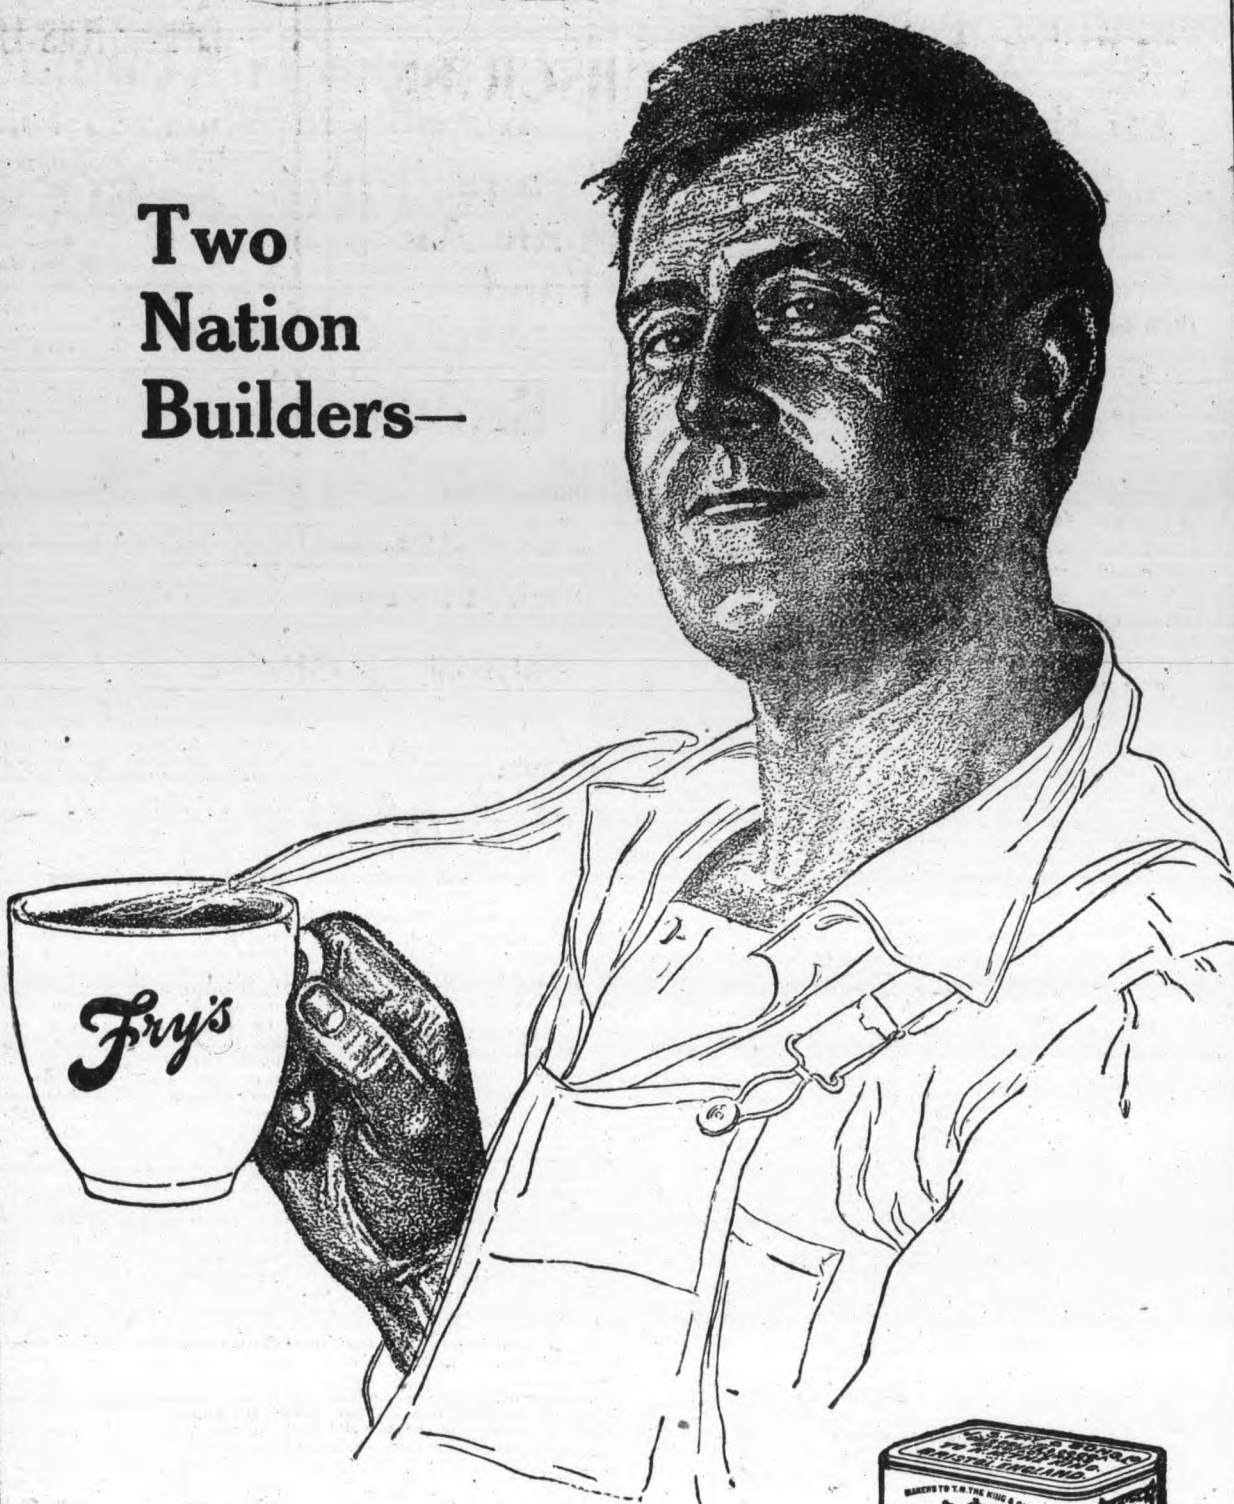

London, Oct. 1.—7.30 p. m.—The war office information bureau made it known to-day that Indian troops were landed in France last Friday. The point of landing was not revealed, but it is presumed that the troops disembarked at Marseilles.

### BURGOMASTER MAX JAILED.

London, Oct. 1.—A dispatch from Berlin says the German military governor of Brussels has announced the arrest of Burgomaster Max by public poster as follows: "I have found myself obliged to suspend Burgomaster Max from his office on account of his irreconcilable attitude. He is now in honorable custody in a fortress."

Will Speak To-night.—Rev. John Fleming, M.A., B.D., of Newcastle-on-Tyne, is to deliver an address at 7.30 this evening at St. Paul's Presbyterian church, Victoria West.

### ONTARIO CABINET RUMORS IN PLENTY

Toronto, Oct. 1.—The atmosphere on Parliament Hill is clearing. Hon. W. H. Hearst, K. C., Sault Ste. Marie, at present minister of lands, forest and mines, will be the next premier of the province of Ontario, according to gossip in some quarters to-day.

Mr. Hearst is said to be favored by Hon. Frank Cochrane, minister of railways and canals in the federal cabinet, who has of late been taking very active interest in provincial affairs, and is at the same time said to be the compromise choice among other aspirants.

While the second to the youngest member of the Ontario cabinet in point of service, and with but six years experience in the legislature, Mr. Hearst is nevertheless regarded as the man wielding the greatest influence in the party.

### LAST VESSEL TO LEAVE ANTWERP REACHES COAST

San Pedro, Oct. 1.—The British steamer Oristano arrived here yesterday from Antwerp via Newport News and Panama, being the last steamer to leave port after war began and the first from Europe through the canal. Cannon were plainly heard when the steamer sailed down the mined Scheldt river to sea after her crew had been drafted for the army and part of her cargo on the wharf requisitioned. A new crew and coal were shipped at Cardiff.

### WAGONS FOR CONTINGENT.

Port Arthur, Ont., Oct. 1.—The Port Arthur wagon works has an order for 85 special transport wagons for the use of the first Canadian contingent.

Sport for Soldiers.—A Rugby team to take part in the Barnard Cup series is being organized in the 88th regiment. A soccer team is also being organized.

### GENEROUS GIFTS FOR THE PATRIOTIC FUND

Total Continues to Grow; Many  
Citizens Not Waiting Arrival  
of Committees

In connection with the work of the Victoria Patriotic Aid society the officers wish to publish a warning to the public against giving contributions to other than authorized collectors of the organization. All authorized collectors carry forms with the signature of the chairman, A. C. Flumerfelt, and the secretary-treasurer, R. H. Swinerton.

Collecting is still progressing very satisfactorily, and offers of assistance in various forms has been made at the headquarters during the past few days. Numbers of people have not waited for a visit from the canvassing committee, and have gone direct to the offices, corner of Broad and Fort streets, and there handed in their subscriptions direct.

A further generous offer has been made. Councillor A. E. Chandler, of Saanich, yesterday stated that he would place at the disposal of the society, to be raffled or sold otherwise, a \$600 lot off Wilkinson road, Colquitz, the proceeds from which would be given to the fund. In addition to this, Councillor Chandler has subscribed \$10 per month during the war. Several copies of "On to Victory," a patriotic song composed by Madame Loeser, of Vancouver, have been left at the rooms of the society, the composer having also offered her services to sing at any patriotic concert for which her services may be required.

Mr. Swinerton, the secretary, wishes to state, apropos of an anonymous let-

ter which has been received, that anyone wishing information should call at the offices or attach his name and address to any correspondence which he may make. Without such it is impossible for the secretary to reply direct to the writer. In the particular case in question the secretary states that he had no knowledge of the circumstances, and made inquiries of the Daughters of the Empire, who informed him that they had investigated the case in question and had informed the person that they would be unable to deal with the matter. Further anonymous letters will not receive any attention.

### POPULAR OFFICIALS PROMOTED.

Winnipeg, Man., Oct. 1.—It was announced this morning that W. P. Hinton, assistant passenger traffic manager of the Grand Trunk Pacific railway, is to have his district extended over the Grand Trunk Pacific system in the East, and his official headquarters will be transferred from Winnipeg to Montreal. W. E. Duperow, assistant general passenger agent, after Mr. Hinton's departure, will assume charge of the passenger traffic department here.

Entertain Soldiers.—The Victoria Amateur Dramatic society will give an entertainment at the camp of the 88th Fusiliers in the drydock yard to-morrow evening. Miss Phyllis Davis, W. L. Hinks and R. Horton will be among the entertainers.

Volunteer Guard Parades.—The Victoria Volunteer Guard will parade at 8 o'clock this evening in the drill hall on the orders issued by the commanding officer this morning.

50th Shoots Well.—A party from the 50th Highlanders spent this morning at Clover Point ranges practicing shooting. Some excellent shots are being developed in this regiment and the average scores made are astonishingly high considering the short time the battalion has been mobilized.

## DECISION NOT CHANGED

License Commissioners Rule That Sus-  
pension of Delhi License Must Re-  
main Effective as Against Hotel.

At the meeting of the license com-  
missioners yesterday afternoon Rev.  
Thomas Green made an appeal to the  
commissioners in connection with the  
license of the Delhi hotel. He claimed  
that the commissioners had been mis-  
informed the previous week when they  
were told that the hotel and restaur-  
ant licenses at the premises were  
held by different persons. The hotel  
license had been suspended by the  
court for thirty days. The license of  
the hotel was held by A. W. Ottignon  
& the restaurant license by Ottignon  
& Wain.

The mayor pointed out that the con-  
viction was against J. W. Robinson,  
holding a temporary transfer of the  
hotel license from Ottignon. Under  
those circumstances the board de-  
clined to interfere with the decision  
already announced. There was no  
complaint against the conduct of the  
restaurant license.

## WEEKLY WEATHER REPORT.

POINT COURSE TO  
BENEFIT THE CITYDevelopment Association Urges  
Citizens to Buy Victoria-  
Made Goods

The following circular, of which 15-  
000 copies have been prepared, is being  
issued to heads of families by the in-  
dustries committee of the Victoria and  
Island Development association:  
"A simple way to help to improve  
present conditions, to make business  
better, to build up Victoria and to help  
the unemployed.

"Has your income stopped? If not,  
be thankful. There are many men in  
the manufacturing business to-day  
whose incomes have stopped, and who  
are losing money daily. There are  
hundreds of men and women whose  
wages have stopped because the manu-  
facturer had to discharge them for  
want of orders.

"Do you wish to help? Do you know  
what it is at the end of the week or  
month to realize that there is no  
cheque, no pay envelope for you, nothing  
to take home to the wife and kid-  
dies? If you do not, others do.

"You can help now. Not to-morrow!  
Now, to-day! Every time you give an  
order to your tradesman for anything  
you want and tell him that it must be  
made in Victoria, you do help. There  
are one hundred firms of manufactur-  
ers in the city to-day who have had to  
discharge at least half their workmen.

"If we all help, a large number of the  
unemployed will be given work, our in-  
dustries will be placed on a firm basis,  
the money will be kept in Victoria, and  
you will have helped to do it.

"How to help: When giving your  
orders, examine the list of the local  
manufacturers of the things you want,  
make a selection, and state plainly that  
you want that one made.

"The price is no higher and the qual-  
ity is no lower than those of the im-  
ported articles, and your money helps  
to develop Victoria and to provide a  
job for someone who needs it.

"Let your patriotism be practical."  
Each manufacturer in the city will  
receive a letter from the committee  
framed in the following terms:

"Gentlemen: In connection with our  
efforts to secure the support of our  
own people for Victoria-manufactured  
goods, we would like to have as com-  
plete a directory of the manufactures  
as possible.

"We would also like to have, in con-  
nection with it, the amount of capital  
invested in each individual industry  
and the number of men who are usually  
employed. This will be very valuable  
to us, especially in securing new in-  
dustries—that is, industries that will not  
enter into competition with what we  
now have. We particularly desire to  
know the number of men you employ  
under normal conditions, say, a year  
ago, and the number you are employ-  
ing now.

"We want to particularly impress  
upon our people the fact that if they  
will support our own industries a large  
number of people will be able to get  
their old jobs back again, which will  
relieve the unemployed situation.

"Please let us have all the infor-  
mation you care to give us by return  
mail."

Happiness and misfortune stand in a  
continual balance.—Novalis.

Every man truly lives so long as he  
acts his nature, or some way makes good  
the faculties of himself.—Sir Thomas  
Brown

## The Famous Angle Lamp

Never smokes or smells, whether burned at full height or  
turned low like gas. The angle at which the flame burns  
throws the light from its most brilliant surface directly  
downward. The effect of the light is doubled, producing  
a reading light, with which no other system can compare.  
The Angle Lamp is the most economical and the safest of  
all lighting methods. It comes in single, two, three and  
four-light lamps.
